Testing of SRWA pump station

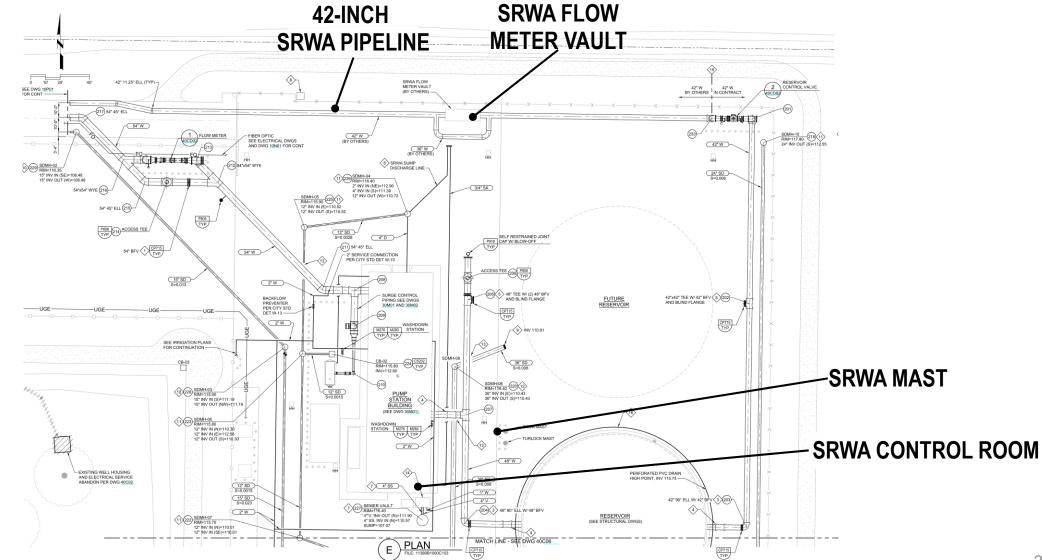

Sections 01140 provides information

for bidding purposes

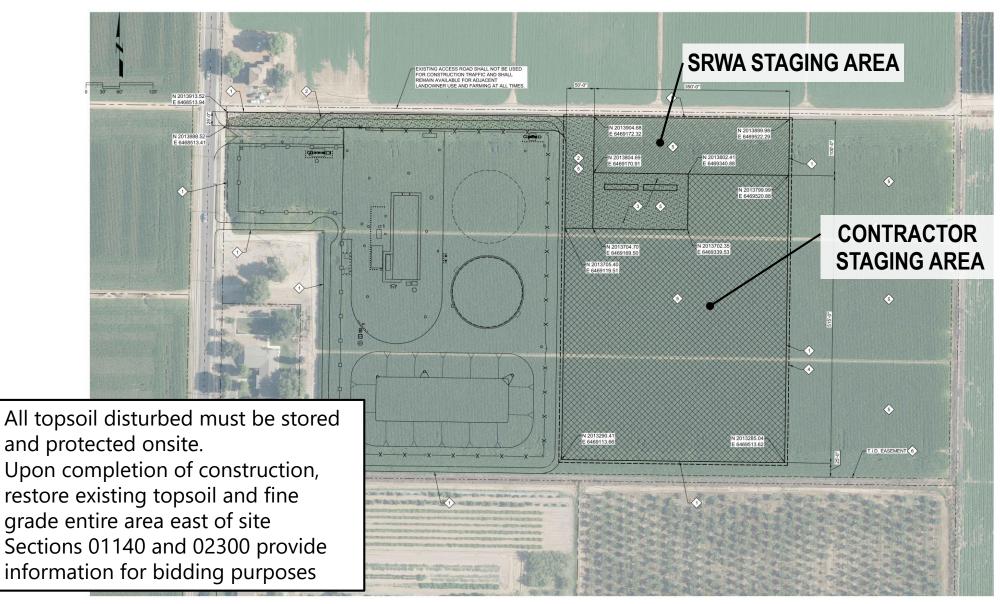

٠

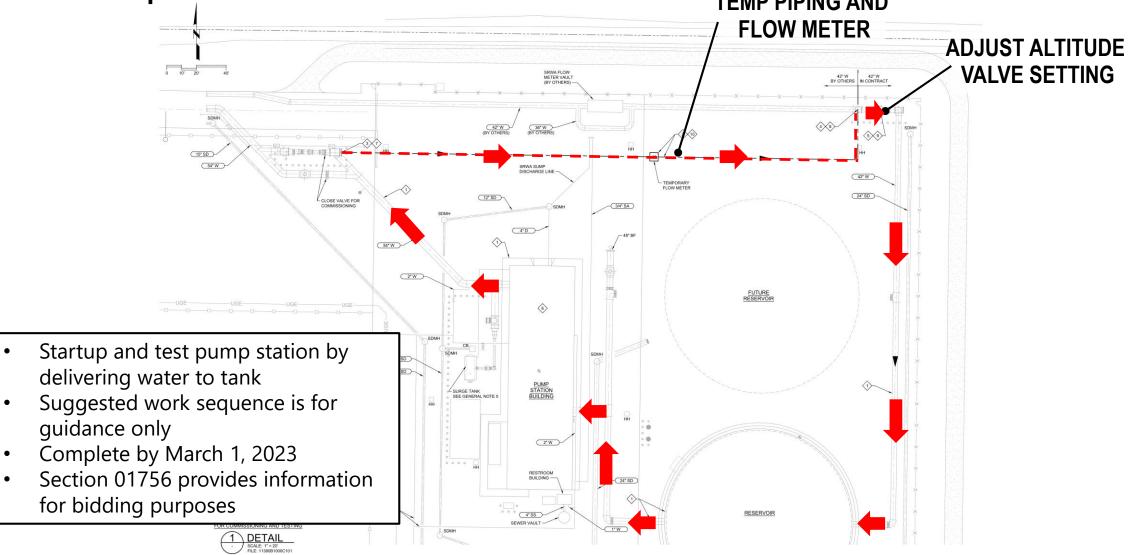

#### // SRWA Coordination

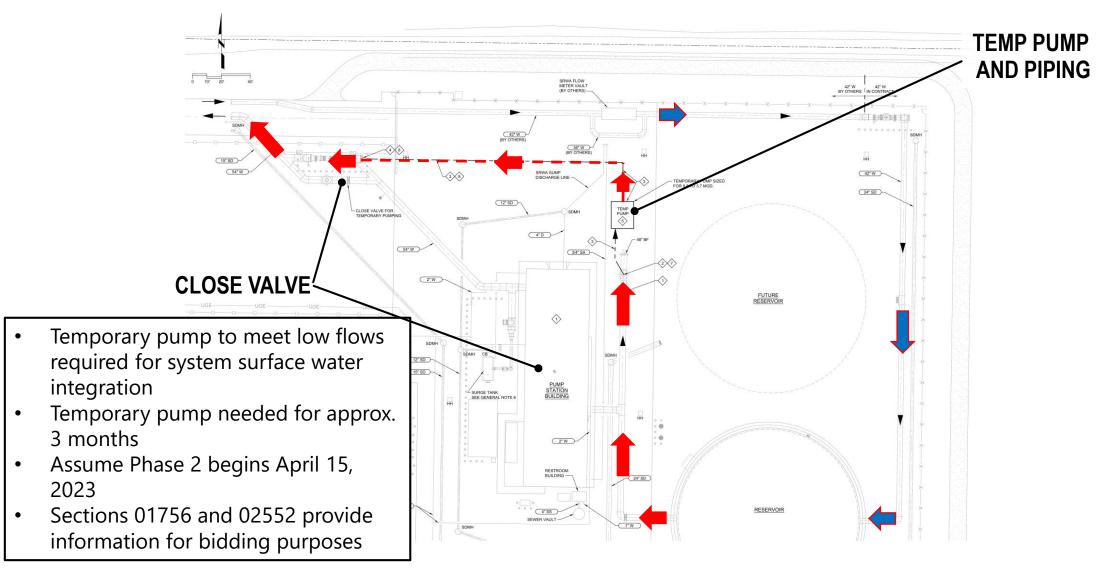

#### // Temporary staging and agricultural field restoration

## // Phase 1 commissioning: pump station and terminal tank startup

## // Phase 2 commissioning: temporary pumping to the distribution system

#### // Bid Form

- Base Bid:
  - Unit Price Bid
  - Allowances included in bid
- Bid Alternates:
  - 1) Eliminate future switchgear for pump station expansion
  - 2) Eliminate detention basin pump station, 15-inch storm drain pipeline, storm drain manholes and associated work
  - 3) Eliminate Phase 2 commissioning: temporary pumping to the distribution system and associated work
- Base bid used for award of contract (not Alternates)

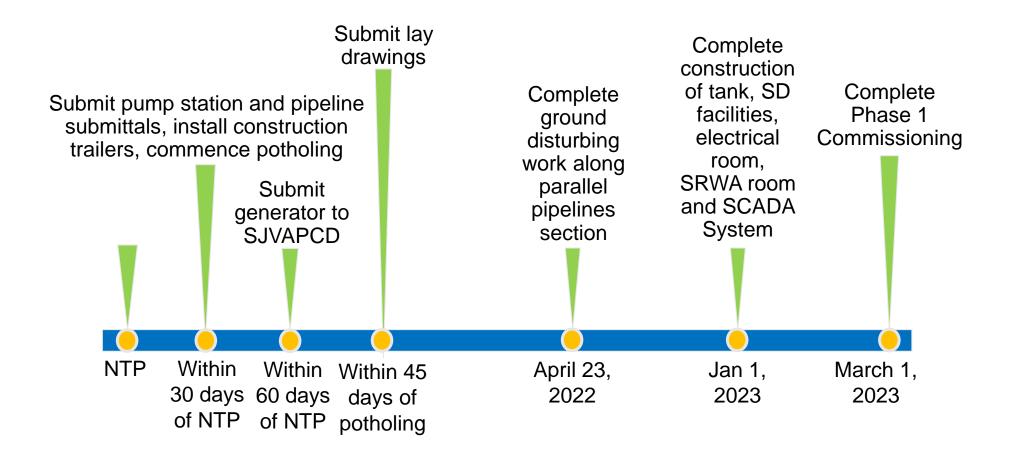

#### // Key bid information

- Required Qualifications (updated in Addendum 1):
  - Three or more reference projects with similar work.
  - Bidder and/or a proposed subcontractor has met the following:
    - One concrete tank greater than or equal to 1.5 MG in last 10 years
    - One pump station with design flow rate of at least 4 mgd in last 10 years
    - One mile of pipeline 24-inches or larger in last 10 years
    - One similar project with a total construction cost of \$10 M in last 10 years
  - Reference projects substantially complete at bid opening

#### // Pump Pre-purchase

- City is pre-purchasing the three (3) horizontal split case pumps, motors and VFDs
- Contract will be assigned to Contractor
- Pre-purchase package will be attached to contract via Addendum
  - Payment to Contractor via change order

#### // Contract Times

#### // Contract Times

- Document 00520
- Milestones
  - Submit all submittals to start construction of the pump station within 30 days of NTP
  - Submit pipeline product data within 30 days of NTP
  - Install construction trailers within 30 days of NTP
  - Commence potholing within 30 days of NTP
    - Within 45 days of completing potholing, submit pipeline layout drawings
  - Submit generator to SJVAPCD within 60 days of NTP

#### // Contract Times

- Milestones
  - By April 23, 2022, complete all ground disturbing work along parallel pipelines section of work
  - By Jan 1, 2023, complete construction, testing and commissioning of:
