Overview of Community Outreach

Community involvement is an integral component of the Housing Element process. The City of Turlock employed a range of public outreach and engagement strategies to solicit meaningful community input that has informed the 2023-2031 Housing Element. These strategies included targeted community listening sessions, decision-maker meetings, pop-up outreach, a community survey, as well as ongoing communication at the project's website. A summary of these engagement activities is described below.

“LISTENING SESSION” FOCUS GROUP DISCUSSIONS

At the outset of the process, the City hosted a series of listening sessions with property owners, community group representatives, local architects, and others to gather information on housing needs and preferences, as well as opportunities and constraints to residential development in Turlock (page G-3). In total, 5 listening sessions were held over the course of April 18-21, 2023, over Zoom. Participants included representatives from housing production and supportive services organizations, including Stanislaus County Affordable Housing Inc, Maracor Development, Florsheim Homes, Center for Human Services, Children Crisis Center, We Care Turlock, and Youth Navigation Center (YNC) of Stanislaus County. Participants of the listening sessions gave a sense of various economic segments of the community, as some representatives had worked with a range of groups within Turlock, such as people experiencing homelessness, extremely low-income and low households, students, older adults, and families. Participants were able share ideas on how to meet the housing needs of those they represent. Some participants had more specialized backgrounds in finance, where their expertise was more useful in informing regulatory environment and financing concerns within Turlock and Stanislaus County as a whole. Comments discussed in the focus groups included opportunities to renovate and restore older facilities along commercial corridors for affordable housing, providing guidance for ADU development like objective design standards, and consolidating lots for development. Participant feedback from these groups helped inform program of actions in the Housing Element, including Workforce Housing Overlay (Program 1-B), Small Lot Subdivision Ordinance (Program 1-D), ADU/JADU Awareness (Program 1-E), Congregational Overlay (Program 1-F), Predevelopment Consultation (Program 2-A), Objective Standards for Multifamily and Mixed Use Development (Program 2-B), and Design Review (Program 2-C). These programs address development feasibility and can be found in detail in Chapter 4 Housing Action Plan.

WEB AND SOCIAL MEDIA

A webpage on the City's website to serve as a portal for the Housing Element Update. The webpage was regularly updated throughout the course of the project to provide contextual information on legal requirements and key concepts and housed draft documents for public review. Updated content was posted to the City website regularly to keep the community informed of progress.

POP-UP OUTREACH

Using a “go to them” strategy to raise awareness of the project and provide community members with additional in-person opportunities for input, City staff conducted pop-up events in 2023 at locations where community members gather, such National Night Out event held at Columbia Park (page G-5). Events were structured as “chalk board chats” that provided community members with opportunities to learn about the project and share quick feedback on what strategies the Draft Housing Element and Environmental Justice Element should prioritize. To ensure language access and inclusivity, Spanish-language materials were

available at the event, and bilingual staff were present to assist Spanish-speaking participants in sharing their input. Approximately 30 community members visited the booth to share their thoughts on the potential location of future housing in Turlock. A strong majority were interested in Downtown and Geer Road opportunity areas, and hoped to see infill development and multifamily housing on underutilized and vacant properties. Participants hoped new housing would improve affordability and expressed their desired to live closer to their workplaces. As such, pPublic input received was used to inform programs in Chapter 4, the Housing Action Plan, including programs that address housing affordability, promote a wider variety of housing types and sizes, and help ease displacement pressure, like SB 9 Housing Ordinance (Program 1-C), Workforce Housing Overlay (1-B), and Live-Work Units (Program 2-F).

COMMUNITY ONLINE SURVEY

In order to gather community input to inform updates to the Housing Element, an online survey was conducted February 1, 2024, to March 1, 2024. The survey focused in particular on five areas of Turlock with the greatest potential to accommodate new housing or other types of development in the coming years, and the questions were designed to solicit feedback that will help plan where new housing, employment, and shopping should be located and how to achieve other community objectives like improving transportation options, revitalizing older commercial streets, and preserving and enhancing neighborhood character. To ensure broader community participation, the survey was made available in both English and Spanish. This helped remove language barriers and encouraged input from Turlock’s Spanish-speaking residents. The survey provided residents with an opportunity to help identify and evaluate strategies for accommodating housing that informed the sites inventory and helped the City meet the legal requirements for the Housing Element. The survey was promoted via the City’s website and email blasts to community members, and citywide mailers to all households in Turlock. In total, more than 1,500 respondents participated in the survey. A full survey report can be found on page G-9. The results of the survey guided selection of sites for inclusion on the inventory and strategies to facilitate development and redevelopment of sites. Community support for new housing was strongest in the North Golden State, Geer Road, South Lander, and West Main opportunity areas, so programs in the Element focused on land use and zoning changes to increase the potential for new housing in these areas. Chief among these strategies is the creation of a Workforce Housing Overlay (Program 1-B), which will permit multifamily housing development by right at between 20 and 35 units per acre on vacant and underutilized parcels in the North Golden State, Geer Road, West Main, and South Lander Opportunity Areas as a means of promoting the construction of housing for teachers, nurses, firefighters, police officers, restaurant and services workers, and others employed in Turlock. Other related strategies include the adoption of objective standards for multifamily and mixed use development (Program 2-B) intended to facilitate development of high density residential development to meet local need and zoning amendments to facilitate construction of live-work units for a wider variety of entrepreneurs and self-employed residents (Program 2-F).

PUBLIC REVIEW DRAFT

The Draft Housing Element was available for public review between October 3 and November 4, 2024. During that timeframe, a meeting of the Planning Commission was held to introduce the Draft Element to the community and receive comments. Two community members spoke at the meeting, both in support of infill housing development. Additionally, a notice was sent to all property owners in the proposed Workforce Housing Overlay to inform them that the City was considering adoption of a zoning overlay that would allow them to develop housing on their properties if they choose. In response 10 property owners contacted the City to express support for the overlay and interest in potentially developing multifamily housing on their properties. No other written comments were sent directly to the City following the release of the Public Review Draft; however, in November 2022 HCD received a comment letter regarding the Turlock Housing Element from a resident of Contra Costa County (included at the end of this Appendix)

The comment letter appears to be a form letter into which "TURLOCK" was cut and pasted. The commenter alleges without evidence that the City of Turlock regularly fails to deliver CEQA-exemption determinations in a timely manner and recommends that HCD inform the City of Turlock that an analysis of CEQA and Permit Streamlining Act Compliance should be incorporated into the Draft Housing Element, which HCD has done in its letter of April 3, 2025. In response, new text has been added to Appendix C to clarify the procedures used by City staff to ensure compliance with CEQA and the Permit Streamlining Act.

Further, after the release of the Public Review Draft, a community member emailed Dyett and Bhatia, the firm assisting the City of Turlock with Housing Element notifying that the compliance end date for 381 W Hawkeye, Villas at Parkside, in Turlock, CA was listed as 2053 in Appendix B: Housing Needs Assessment, though the end date for this property is actually in 2029, during the planning period. The email and attachments are included in this Appendix G. In response to this comment, a new program was added, Program 4-J, Expiring Covenants, which would pursue a program to purchase affordability covenants on existing multi-family units, subject to restrictions that the affordability covenants would be in effect for not less than 30 years, and that at least 20 percent of the units would be affordable to extremely low- and very low-income households. More information is available in Chapter 4: Housing Action Plan.

DECISION-MAKER REVIEW

A series of study sessions before the Planning Commission and City Council were held as the components of the Housing Element were developed and refined, providing additional opportunities for public input and decision-maker review. The Planning Commission held a study session on the preliminary sites inventory and key strategies for the Housing Element in July 2024, and feedback was used to refine the sites analysis and specific strategies for accommodating RHNA and furthering fair housing in Turlock (page G-158). Upon close of the 30-day public review period, the Draft Housing Element and public comments were presented to the Planning Commission in November 2024 and City Council in January 2025. Adoption hearings before the Planning Commission and City Council are planned for spring_summer2026, following review by HCD.

On behalf of David Kellogg (a Contra Costa County resident), 350 Contra Costa, Greenbelt Alliance, CaRLA, Scott O’Neil (a resident of Palo Alto), Watson Ladd (a resident of Berkeley), Marven Normal (a resident of San Bernadino), Dara Dadachanji (a resident of San Francisco), and George Grohwin (a resident of San Francisco), we provide the following comment on the Housing Element from TURLOCK.

Issue

- The Housing Element from TURLOCK fails to adequately analyze compliance

with one of the state's fundamental streamlining laws.

- Under PRC 21080.1 & 21080.2, a lead agency must determine if a housing development is exempt from CEQA within 30 days of completeness, or if an EIR or other CEQA document will be required.
- For CEQA-exempt housing, this CEQA determination then triggers a 60-day approval clock (with deemed approved remedies) under the Permit Streamlining Act. Thus, if state housing laws were followed, CEQA-exempt housing projects should generally receive approvals in about 120 days.
 1. 30 days to determine completeness
 2. 30 days for CEQA review
 3. 60 days for approval.
- TURLOCK does not appear to issue determinations of CEQA-exemption within 30 days of completeness. As a result, **builders and the public are denied the right to the timely approval of housing**. Additionally, the builders are forced into an unreasonable bargaining position, as they lack the "deemed approved" options they should have. This improperly empowers jurisdictions to treat builders arbitrarily in the entitlement process.
- Moreover, TURLOCK has no apparent good-faith basis for delaying CEQA-exemption determinations beyond the allowance of Public Resources Code 21080.1 & 21080.2. In the vast majority of instances, these exemptions are uncontested and straightforward.

Recommendation

- The Housing Element from TURLOCK should include an analysis of compliance in its approval process with PRC 21080.1 & 21080.2.
- The Housing Element from TURLOCK should add a program to specify (i) who is responsible for making the CEQA determination of PRC 21080.1, specify (ii) that their decision will be made within the timeframe permitted by PRC 21080.2, and specify that (iii), when they determine a project is exempt from CEQA, their determination triggers the Permit Streamlining Act (PSA) 60-day deadline (Gov. Code 65950(a)(5)). If existing local practices or regulations are incompatible with these state laws, the program should commit to enacting reforms necessary to achieve compliance within a reasonable and definite timeline.

HCD Technical Assistance Letter

- The CEQA issues mentioned herein are discussed in the June 3, 2022 Technical Assistance letter sent to Berkeley by Shannan West, Housing Accountability Unit Chief (copy included below).
- In the letter, HCD notes that Berkeley had been issuing "recommendations" of CEQA-exemption and that the actual "determinations" were made more than 30 days beyond the completeness date. HCD notes that such practice was in violation of PRC 21080.1 & 21080.2 and "may act as a governmental constraint on housing."

Berkeley, CA 94704

Dear Sharon Gong:

RE: Berkeley – Letter of Technical Assistance

The purpose of this letter is to provide technical assistance to the City of Berkeley (City). The California Department of Housing and Community Development (HCD) has become aware of potential conflicts between the practices of the City's Zoning Adjustments Board (ZAB) concerning determinations for projects determined to be exempt from the California Environmental Quality Act (CEQA) and timelines pursuant to Public Resources Code section 21080.1, subdivision (a), and Public Resources Code section 21080.2. HCD is concerned that these actions may act as a governmental constraint on housing development and requests the City review the CEQA determination process in Berkeley's 6th Cycle Housing Element and include programs to mitigate or remove constraints as necessary.

Obligations Under Public Resources Code sections 21080.1 & 21080.2

HCD has been made aware of at least five development applications where the final ZAB determination was made more than 30 days after the relevant permit was determined to be complete. As the City is aware, under the Public Resources Code, a lead agency must make a determination under CEQA for projects exempt from environmental review within 30 days of a project application being deemed complete. These provisions are critical to meeting the Permit Streamlining Act requirement set in Government Code section 65950, subdivision (a) (5), and generally facilitate the processing of housing developments.

6th Cycle Housing Element

As Berkeley is updating its 6th Cycle Housing Element, the City must describe and analyze the permit process from application to approvals, including a discussion on timeframes for each step in the process, impediments, and how it addresses the

Sharon Gong, Senior Planner

application of state law on application processing pursuant to Government Code section 65583, subdivision (a)(5). In addition, the element must also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need and include program actions to remove or mitigate identified constraints pursuant to Government Code section 65583, subdivision (c)(3). Excessive CEQA review timeframes can delay project approval and pose a constraint to the development of housing and should be reviewed as part of the City's housing element update.

Conclusion

HCD understands that the City is currently reviewing its compliance with these provisions and is looking at strategies to transparently document the process to ensure timely approval of CEQA determinations and provide additional transparency. HCD supports these efforts and encourages the City to take meaningful steps to ensure that its processes comply with provisions of state housing law.

Hello,

My understanding in working with CHPC and Turlock is that your firm was involved with the housing element for the City of Turlock.

I am writing bc there appears some inaccurate information was provided to, and subsequently used in writing the City of Turlock Housing Element.

Specifically, the **compliance end date for 381 W Hawkeye in Turlock, CA** was listed as 2053. But in fact the end date for this property is 2029. See the attached from the City of Turlock. And also attached is the TCAC Regulatory Agreement.

Please let me know who was assigned to this project, and how best to get the correct information out to the City of Turlock. Thank you, Yasaman-

REGULATORY AGREEMENT

Federal Credits

Tax-Exempt Bond Financed Project

This Regulatory Agreement (this "Agreement") is made between the California Tax Credit Allocation Committee ("TCAC"), established under Section 50199.8 of the Health and Safety Code of the State of California, and Turlock Lake Park, L.P., a California Limited Partnership ("Owner") and is dated as of July 16, 1999 (the "Effective Date"). The Owner has requested TCAC's determination and TCAC has determined that the Project (as herein defined) satisfies the requirements of the State of California's Qualified Allocation Plan relating to the low-income housing tax credit (the "Federal Tax Credit") under Section 42 of the Internal Revenue Code of 1986. The Tax Credit relates to a multifamily rental housing project known as Lake Park Apartments, identified in the records of TCAC by TCAC# CA-99-898 and IRS Building Identification Number CA-99-89801 through CA-99-89813, and located on the real property described in Exhibit A of this Agreement, attached hereto and incorporated herein (the "Project"). This Agreement is intended to constitute the extended low income housing commitment required by Section 42(h)(6) of the Internal Revenue Code. Accordingly, in consideration of the allocation relating to the Tax Credit by TCAC and the requirements of the Internal Revenue Code, the Owner and TCAC hereby agree as follows:

Section 1. Definitions.

a. Unless the context otherwise requires, capitalized terms used in this Agreement shall have the following meanings:

"Agreement" means this Regulatory Agreement between TCAC and the Owner.

"Applicable Fraction" means the smaller of the Unit Fraction or the Floor Space Fraction, all calculated in accordance with Section 42(c)(1) of the Code.

"Area Median Gross Income" means the median gross income of the area in which the Project is located as determined by the Secretary for purposes of Section 42 of the Code, including adjustments for family size.

"Assumption Agreement" shall have the meaning assigned in Section 14 hereof.

080323 SEP 26 00

"Code" means those provisions of the Internal Revenue Code of 1986, as amended, and regulations promulgated pursuant thereto.

"Compliance Period" means the period of 30 consecutive taxable years beginning with the first taxable year of the Credit Period.

"Credit Period" means, with respect to the State Tax Credit, the period of four taxable years beginning with the taxable year the Project is placed in service or (at the election of the Owner) the succeeding taxable year, and with respect to the Federal Tax Credit, the period of ten taxable years beginning with the taxable year the Project is placed in service or (at the election of the Owner) the succeeding taxable year, as further provided pursuant to Section 2b hereof.

"Effective Date" means the date first set forth herein above.

"Federal Tax Credit" means the low-income housing tax credit under Section 42 of the Code.

"Floor Space Fraction" means the fraction, the numerator of which is the total floor space of the Low-Income Units in a building and the denominator of which is the total floor space of the Units in such building.

"Gross Rent" means all amounts paid by a Tenant for rent, determined in a manner consistent with Section 42(g)(2) of the Code. If the Tenant pays utilities directly, Gross Rent shall include any utility allowance prescribed by the Secretary.

"Income" means the income of a Tenant determined in a manner consistent with the requirements of Section 142(d)(2)(B) of the Code.

"Low-Income" means, with respect to any Tenant, an income level not exceeding 50% or 60% of Area Median Gross Income, as provided in Section 4b hereof, or such alternative income level as may be set forth in Appendix A.

"Low-Income Tenant" means a Tenant who, when the Tenant originally occupied the Unit, had an Income qualifying as Low-Income. For so long as the Tenant occupies the particular Unit [or another unit in the same building], the Tenant will remain a Low-Income Tenant if the Tenant's Income, upon the most recent income certification, does not exceed 140% of Low-Income.

"Low-Income Unit" means a Unit in the Project that is occupied by a Low-Income Tenant, is Rent-Restricted and meets the other requirements of Section 42 of the Code, in particular, Section 42(i)(3).

"Minimum Amount" means the number of Units in the Project required to be Low-Income Units, which Minimum Amount for this Project is 20% or 40% of the Units, as provided in Section 4b hereof. Notwithstanding the Minimum Amount, the Applicable Fraction for this project shall be no less than that set forth at Section 4c hereof.

"Owner" means Turlock Lake Park, L.P., a California Limited Partnership, or successors.

"Project" means the residential rental housing project known as Lake Park Apartments, TCAC# CA-99-898, and located on the real property described in Exhibit A.

"Qualified Low-Income Housing Project" means a residential rental project meeting the requirements of Section 4 hereof.

"Rent-Restricted" means, with respect to any Unit, that the Gross Rent with respect to such Unit is not more than 30% of the imputed income limitation applicable to such Unit pursuant to Section 42(g)(2)(C) of the Code, as modified by Appendix A, if applicable.

"Secretary" means the Secretary of the Treasury of the United States.

"Service" means the United States Internal Revenue Service and any successor thereto.

"State Tax Credit" means the low-income housing tax credit under the provisions of Sections 12206 17058 and 23610.5 of the Revenue and Taxation Code.

"Tax Credit" means the low-income housing tax credit under Section 42 of the Code.

"TCAC" means the Tax Credit Allocation Committee and its successor.

"TCAC Compliance Monitoring Procedures" means those procedures and requirements adopted or imposed by TCAC for the purpose of discharging its responsibilities pursuant to Section 42(m)(1)(B)(iii) of the Code to monitor compliance by the Owner and the Project with the provisions of Section 42 of the Code and notify the Service of instances of noncompliance.

"Tenant" means the individual or individuals entitled to occupy a Unit in the Project by lease or other legal relationship with the Owner.

"Unit" means any residential rental unit in the Project consisting of an accommodation containing separate and complete facilities for living, sleeping, eating, cooking, and sanitation; provided, however, that single room occupancy units used on a nontransient basis may be treated as Units.

"Unit Fraction" means the fraction, the numerator of which is the number of Low-Income Units in a building and the denominator of which is the number of Units in such building.

b. Any term or phrase which is used in this Agreement and not defined herein shall have the meaning, if any, assigned thereto in Section 42 of the Code. Any term or phrase which is defined herein shall, unless the context shall clearly indicate otherwise, be interpreted in a manner consistent with the provisions and requirements of Section 42 of the Code.

Section 2. Term.

a. This Agreement shall commence as of the Effective Date and shall terminate on the last day of the Compliance Period (the "Term"), unless earlier terminated pursuant to Section 2c hereof.

b. The Credit Period commences with respect to each building in the Project (i) the taxable year in which the building is placed in service or (ii) the succeeding taxable year, at the irrevocable election of the Owner pursuant to Section 42(f) (1)(B) of the Code. In the case of the Project, the Credit Period begins in the calendar year ~~20~~¹⁹⁹⁹ or set forth at Appendix A with respect to individual buildings.

c. Notwithstanding subsection a. of this Section 2, this Agreement shall terminate with respect to any building in the Project on the date such building is acquired by foreclosure or instrument in lieu of foreclosure unless the Secretary determines that such acquisition is part of an arrangement a purpose of which is to terminate such period; provided, however, that, except for eviction for good cause, the Tenant of any Low-Income Unit shall be entitled to occupy such Unit in accordance with the provisions of this Agreement for a period of three years following such termination.

Section 3. Filing. This Agreement, and all amendments hereto, shall be recorded as a restrictive covenant in the official records of the County of Stanislaus in which the Project is located. The Owner shall pay all fees and charges incurred in connection with such recording.

The Owner intends, declares and covenants, on behalf of itself and all future owners and operators of the Project during the Term of this Agreement, that this Agreement and the covenants and restrictions set forth in this Agreement regulating and restricting the use, occupancy and transfer of the Project (i) shall be and are covenants running with the Project land, encumbering the Project land for the Term of this Agreement and binding upon the Owner's successors in title and all subsequent owners and operators of the Project land, and (ii) shall bind the Owner (and the benefits shall inure to TCAC and any past, present or prospective Tenant of the Project) and its respective successors and assigns during the Term of this Agreement. The Owner hereby agrees that any and all requirements of the laws of the State of California to be satisfied in order for the provisions of this Agreement to constitute deed restrictions and covenants running with the land shall be deemed to be satisfied in full, and that any requirements or privileges of estate are intended to be satisfied, or in the alternate, that an equitable servitude has been created to insure that these restrictions run with the Project land. For the Term of this Agreement, each and every contract, deed or other instrument hereafter executed conveying the Project or portion thereof shall expressly provide that such conveyance is subject to this Agreement; provided, however, that the covenants contained herein shall survive and be effective regardless of whether such contract, deed or other instrument hereafter executed conveying the Project or portion thereof provides that such conveyance is subject to this Agreement.

Section 4. Qualified Low-Income Housing Project.

a. The Owner shall maintain the Project as a Qualified Low-Income Housing Project within the meaning of Section 42 of the Code at all times, commencing with the last day of the first year of the Credit Period and continuing throughout the Term of this Agreement. To this end, and without limitation, the Owner shall --

(i) operate the Project such that at least the Minimum Amount of the Units in the Project are Low-Income Units, and

(ii) assure that Units in the Project are (A) available for use by the general public, (B) suitable for occupancy and (C) used on other than a transient basis.

080323 SEP 26 00

b. For purposes of this Agreement and Section 42 of the Code, the Owner has elected to comply with [] the "20-50 test" pursuant to which "Low-Income" is defined as 50% of Area Median Gross Income and the Minimum Amount is 20% of the Units in the Project or [X] the "40-60 test" pursuant to which "Low-Income" is defined as 60% of Area Median Gross Income and the Minimum Amount is 40% of the Units in the Project.

c. The amount of Tax Credit allocated to the Project is based on the requirement that the Applicable Fraction for buildings in the Project will be at least 100% or as specified, building-by-building, at Appendix A. The Owner's failure to ensure that each building in the Project complies with such requirement will cause TCAC to report such fact to the Service which may result in the reduction and recapture by the Service of Tax Credit, and (ii) to take other appropriate enforcement action, including, but not limited to, the remedies provided herein.

d. The Owner may not refuse to lease a Unit in the Project to a prospective Tenant who holds a voucher or certificate of eligibility for assistance pursuant to Section 8 of the United States Housing Act of 1937, as amended, because of the status of such prospective Tenant as the holder of such voucher or certificate.

e. The Project and the Owner are subject to the additional and/or modified requirements, if any, set forth at Appendix A, which requirements are incorporated herein and made a part hereof.

Section 5. Annual Determinations; Low-Income Units. Upon initial occupancy and, unless otherwise allowed under Section 42 of the Code and specifically authorized by TCAC, at least annually thereafter, the Owner shall determine and certify the Income of each Low-Income Tenant. If, upon any such annual certification, the Tenant of a Low-Income Unit who was, at the last income certification, a Low-Income Tenant, is found no longer to be a Low-Income Tenant, such Unit will continue to be treated as a Low-Income Unit until the next available Unit of comparable or smaller size in the building (i) is rented to a person who is not a Low-Income Tenant or (ii) is rented without being Rent-Restricted. A Low-Income Unit that has been vacated will continue to be treated as a Low-Income Unit provided that (I) reasonable attempts are made to rent the Unit and (II) no other Units of comparable or smaller size in the building are rented to persons who are not Low-Income Tenants or are rented without being Rent-Restricted. In no case will a Unit be treated as a Low-Income Unit if all the Tenants of the Unit are students (as determined under Section 151(c)(4) of the Code), no one of whom is entitled to file a joint income tax return; provided, however, that such rule shall not apply to the types of students identified at Section 42(i)(3)(D) of the Code, or any successor to such provision, as applicable to the Project.

Section 6. Compliance Monitoring. The Owner acknowledges that TCAC is required, pursuant to Section 42(m)(1)(B)(iii) of the Code, (i) to monitor the Owner's and the Project's compliance with the requirements of Section 42 of the Code and (ii) to notify the Service of any noncompliance which is found. The Owner agrees (I) to maintain records that substantiate and document such compliance, preserving such records for the period required by the Service and TCAC, (II) to take all actions required by TCAC pursuant to the TCAC Compliance Monitoring Procedures to assist or cooperate with TCAC in monitoring such compliance and (III) to pay the fee prescribed by TCAC with respect to such monitoring. The TCAC Compliance Monitoring Procedures require, among other things, that the Owner annually certify to TCAC (on such forms as are prescribed by TCAC) the number of Units in the Project which are Low-Income Units, the percentage of floor space in the Project which is allocable to Low-Income Units, that the Project continues to be a Qualified Low-Income Housing Project; provided, however, that in the first

year of the Credit Period, the Owner shall certify individually with respect to each month of such year the number of Low-Income Units in the Project and the percentage of floor space devoted to such Units on the last day of the month. The Owner is responsible for full adherence to the TCAC Compliance Monitoring Procedures without regard to whether particular requirements of those procedures are enumerated in this Agreement. The Owner agrees TCAC may, at any time during the construction, rehabilitation, or operation of the Project, enter and inspect the Project to evaluate its physical and financial condition, construction, rehabilitation, operation, management and maintenance.

Section 7. Notification of Noncompliance. The Owner agrees to notify TCAC or its designee if there is a determination by the Service that the Project is not a "qualified low-income housing project" within the meaning of Section 42(g) of the Code. Notification to TCAC will be made within ten business days of receipt of any such determination.

Section 8. Security for Performance. The Owner hereby assigns its interest in the rents from the Project to TCAC as security for the performance of the Owner's obligations under this Agreement. However, until and unless the Owner defaults in its obligations under this Agreement, the Owner is entitled to collect, retain and apply such rents.

Section 9. Remedies. In the event the Owner defaults in its obligations under this Agreement and such default is not cured within a reasonable time period, the remedies of TCAC, the Tenants and any former or prospective Low-Income Tenants shall include, but are not limited to, the following:

a. collecting all rents with respect to the Project and applying them (i) to meet the ongoing costs of operating the Project, (ii) to pay debt service, (iii) to reimburse any Low-Income Tenants who may have been charged a Gross Rent above the applicable Rent-Restricted level or (iv) to assure the long-term, Low-Income use of the Project consistent with the requirements of Section 42 of the Code and this Agreement;

b. taking possession of the Project and operating the Project in accordance with the requirements of this Agreement, including the collection and application of rents in accordance with subsection a of this Section 9, until the Owner demonstrates that it will operate the Project in accordance with this Agreement;

c. applying to any court for specific performance of any of the obligations herein set forth;

d. securing the appointment of a receiver to operate the Project in a manner consistent with this Agreement, including subsections a and b of this Section 9;

e. suit against the Owner for damages or for the disgorgement of rents collected in excess of those which would have been received had the Owner complied with the requirements of this Agreement; and

f. requiring the replacement of the manager of the Project with a property manager approved by TCAC, in the event the Owner fails to maintain the Project in sound and habitable condition, such that each Low-Income Unit is suitable for occupancy in accordance with the requirements of Section 42 (I) (3) (B) (I) of the Code and Section 4a of this Agreement;

g. requiring the payment of an increased compliance monitoring fee by the owner for such period as TCAC determines appropriate; and

h. such other relief as may be appropriate.

Section 10. Enforceability. This Agreement may be enforced by TCAC or its designee, including any agency of State or local government identified at Appendix A hereto or otherwise in a written notice provided by TCAC to Owner. In addition, the Agreement shall be deemed a contract enforceable by, and shall inure to the benefit of, one or more Tenants or persons meeting the Low-Income restriction, whether past, present, or prospective Tenants, as third-party beneficiaries hereof. TCAC, its designee and/or any Tenant or other third-party beneficiary shall be entitled to reasonable attorneys' fees and other legal costs in any judicial or administrative action in which such party shall prevail.

Section 11. No Conflicting Agreements. The Owner warrants that it is not bound by and will not execute any other agreement with provisions that bind it to violate the provisions of this Agreement; provided, however, that with the approval of TCAC, this Agreement may be subordinated, if required, to any lien or encumbrance of any banks or other institutional lenders to the Project; provided, further, that the terms of any such subordination shall provide that (i) prior to any such lender's acquisition of the Project by foreclosure or instrument in lieu of foreclosure, the exercise of any remedy or authority by any such lender shall be subject to all of the requirements of the Agreement, and (ii) subsequent to any such lender's acquisition of the Project by foreclosure or instrument in lieu of foreclosure, the requirement of Section 2c hereof, with respect to the continuation of occupancy and rent restrictions for three years following certain terminations of this Agreement, shall remain in effect.

Section 12. Successors Bound. This Agreement and the covenants and conditions contained herein shall run with the land and shall bind, and the benefits shall inure to, respectively, the Owner and its successors and assigns and all subsequent owners of the Project or any interest therein, and TCAC and its successors and assigns, for the Term of this Agreement, without regard to whether any such parties shall have executed an Assumption Agreement with respect hereto. Upon termination of this Agreement, the covenants and conditions contained herein shall expire, except that the requirement of Section 2c hereof, with respect to the continuation of occupancy and rent restrictions for three years following certain terminations of this Agreement, shall remain in effect.

Section 13. Amendments; Waivers. Except as otherwise provided in this Agreement, this Agreement may not be amended, changed, modified, altered or terminated except by written instrument executed and acknowledged by each of the parties hereto or their successors and duly recorded in the official records of the county in which this Agreement is recorded. Any waiver of any provision of this Agreement shall not be deemed to be an amendment hereof. Upon request by TCAC, the Owner agrees that it will take all actions necessary to effect any amendment of this Agreement which may be necessary in TCAC's sole discretion to comply with the Code, and any and all applicable rules, regulations, policies, procedures, rulings or other official statements pertaining to the Tax Credits.

Section 14. Assignment by Owner. The Owner may not sell or otherwise dispose of any portion of any building in the Project unless it disposes of the entire building to the same person. Upon sale or transfer of the Project, the Owner shall be relieved of all obligations under the Agreement and the transferee shall succeed to and be bound by all of the Owner's rights and obligations hereunder, without regard to whether the transferee has executed an Assumption

080323 SEP 26 00

Agreement as hereinafter provided. Prior to any transfer of the Project, the Owner shall notify TCAC in writing and provide the name(s) and address(es) and financial reports of the prospective successor owner and operator. The Owner shall require, as a condition precedent to any sale, transfer or exchange or any other disposition of the Project prior to termination of this Agreement, that the purchaser or successor assume, in writing, in an Assumption Agreement acceptable to TCAC, the Owner's obligations hereunder and under Section 42 of the Code and applicable regulations, which Assumption Agreement shall be delivered to TCAC in executed, recordable form prior to any such sale, transfer or exchange. This provision shall not act to waive any other restriction on sale, transfer or exchange of the Project or any building in the Project. The Owner agrees that any sale, transfer or exchange of the Project without execution of an Assumption Agreement or otherwise in contravention of the provisions of this Section 14 shall be voidable at the discretion of TCAC. Changes in the constituents of the Owner shall not constitute a default under this Agreement. Owner acknowledges that the sale, transfer or exchange of the Project, or any interest in the Project or the Owner, consistent with the requirements of this Agreement, does not relieve the Owner or any of its constituents from any obligations which it may have under Section 42 of the Code, including those with respect to recapture of Tax Credit or any alternative thereto.

Section 15. Notices. All notices, certificates or other communications shall be sufficiently given and shall be deemed received on the second day following the date on which the same have been mailed by certified mail, postage prepaid, or sent by other method which produces evidence of delivery thereof, addressed as follows:

To the TCAC:

California Tax Credit Allocation Committee
915 Capitol Mall, Room 485
P.O. Box 942809
Sacramento, CA 94209-0001

To the Owner:

Turlock Lake Park, L.P., a California Limited Partnership
1801 East Parkcourt Place, Building E, Suite 204
Santa Ana, CA 92701

TCAC and the Owner may, by notice given hereunder, designate any further or different addresses to which subsequent notices, certificates or other communications shall be sent.

Section 16. Indemnification. The Owner agrees to indemnify and hold harmless the Chairperson, TCAC committee members, TCAC officers, directors and employees from and against all liabilities, losses, claims, damages, judgments, costs and expenses (including, without limitation, reasonable attorneys' fees) incurred by TCAC as a result of any material inaccuracy in any of the representations and warranties contained in this Agreement, or as a result of any action by the Owner, including claims by third parties.

The Owner agrees that should any claims, demands, suits or other legal proceedings be made or instituted by any person against TCAC which arise out of any of the matters relating to this Agreement, the Owner will cooperate fully with TCAC in the defense or other disposition thereof.

080323 SEP 26 00

Section 17. Severability. The invalidity of any clause, part or provision of this Agreement shall not affect the validity of the remaining portions thereof.

Section 18. Governing Law. This Agreement shall be governed by the laws of the State of California, excluding conflicts provisions, and, where applicable, the laws of the United States of America.

Section 19. Survival of Obligations. The obligations of the Owner as set forth herein and in the application shall survive the allocation of the Tax Credit and shall not be deemed to terminate or merge with the awarding of the allocation.

Section 20. Interpretation. TCAC's interpretation of this Agreement shall be controlling for purposes of determining whether (i) the Compliance Period shall have commenced, (ii) this Agreement shall have been terminated in accordance with Section 2 hereof, and (iii) the Additional Use Restrictions elected at Appendix A hereto, if any, shall have been complied with.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed by their respective duly authorized representatives, as of the day and year first written above.

Re: Stakeholder Interview Summaries
Date: May 2023

Dear Katie,

This memo summarizes the five housing forum sessions held between April 18 to April 21, 2023. The summaries include constraints and opportunities, as well as unique perspectives heard by the stakeholders in each session.

Session #1 April 18, 2023, 10:30am

In this session, participants discussed the type of housing they design for and the location of these projects throughout Stanislaus County. Projects include a mix of garden style apartments, single-family homes, and accessory dwelling units (ADUs). Participants suggested that tandem parking may aid with reduced setbacks, as well as reduced driveway apron. As for ADUs, participants discussed that opportunities exist on existing and new lots, where objective design and development standards may help. Participants also noted barriers to infill development, which include setbacks and building coverage, parking requirements, FAR (Floor Area Ratio) for residential, and open space requirements.

Session #2 April 18, 2023, 11:30am

Participants in this session detailed the construction and development of affordable housing within the city, namely discussing shelter/transitional housing, No Place Like Home program, and other pipeline projects. Participants noted there is opportunity for housing around California State University, Stanislaus, where the development is more tolerated by the community. There are also opportunities to renovate and restore older facilities along commercial corridors that may be repurposed for affordable housing. Participants also discussed the challenges to develop affordable housing in the community. Participants suggested attitudes around affordable housing can be combatted with education about the need of the population and housing, particularly showing which faces in the community are most in need.

CITY OF TURLOCK MEMORANDUM

Session #3 April 18, 2023, 1:30pm

Participants in this session discussed challenges for special needs groups in Turlock, particularly the struggles of finding and keeping housing due to being on a fixed income, being priced out, and often times, not having a support system like a family. Displacement prevention is a key for special needs groups, such as those needing mental health/drug rehab services, youth between 13 to 17, and families. Participants also listed barriers to accessible housing, like limited supply, affordability, and support services, while others discussed possible solutions, like flexible zoning, flexible funds, and utility assistance to keep people in their homes. Participants also discussed topics of fair housing, such as tenant rights education for youth, and generational poverty may lead to income segregation.

Session #4 April 18, 2023, 2:30pm

In this session, market rate developers discussed constraints and opportunities to developing housing in Turlock. Participants noted increasing opportunities for multi-family residential (MFR) due to interest rates going up; however, some participants noted that MFR still may not pencil out for some developers. Participants discussed that zoning could be a challenge for development, as Planned Development (PDs) zoning and specific plans can make it difficult to develop housing. Additionally, the City of Turlock does not permit housing on commercially zoned properties, whereas other jurisdictions in Stanislaus County do, such as Modesto. Specific plans can make costs of housing development high; however, financing programs and Enterprise Loan Funds (ELFD) can help. Participant also discussed SB 330 and how medium density is set up for duplexes. There are also opportunities for the City to annex land in northern Turlock, about 30+ acres, that has infrastructure in place.

Session #5 April 21, 2023, 9:30am

There was discussion about student housing near California State University, Stanislaus, as there has been an increase of students living at home with their parents versus those living independently, due to the high cost of units for students. Potential subsidies to increase accessibility for lower-income students, as well as partnering with campuses to reduce rates and expand number of beds with tax exempt bonds were discussed as potential solutions. The success of student housing property The Vista was explored. The conversation also included challenges to building housing in Turlock, where the participant noted two: increasing construction costs, due to interest rates, and increasing operating costs, such as security and insurance. Challenges are faced by both market-rate and affordable housing developers. Participants suggested the build-to-rent model as an opportunity for Turlock's market communities and recommended developing underutilized shopping centers along Geer Road, downtown areas, or Monte Vista corridors for rental housing opportunities.

- Approximately 30 community members

SUMMARY

The pop-up outreach was conducted at Columbia Park during National Night Out, a community event attended primarily by families in Turlock. Approximately 30 community members visited the Housing Element Update Pop-up Outreach booth throughout the evening. Staff from Dyett and Bhatia were present to gather feedback on where Turlock should promote housing production to inform the Housing Element Update. Participants also had the opportunity to ask questions, participate in surveys, and mark their first, second, and third choices for the potential location of future housing in Turlock on a large map presented on an informational board.

- A strong majority of the individuals who visited the popup were supportive of new housing in Turlock. The most popular areas indicated were concentrated around the Colorado Opportunity Area as well as the northern section of the Geer Road Opportunity Area.
- Participants hoped that new housing would improve affordability and expressed desires to live closer to their workplaces. Some indicated that they worked near North Turlock, Downtown, or along Geer Road.
- People were also curious to know what kind of housing was proposed and supported the idea of infill development and multifamily housing on Turlock's underutilized or vacant properties.

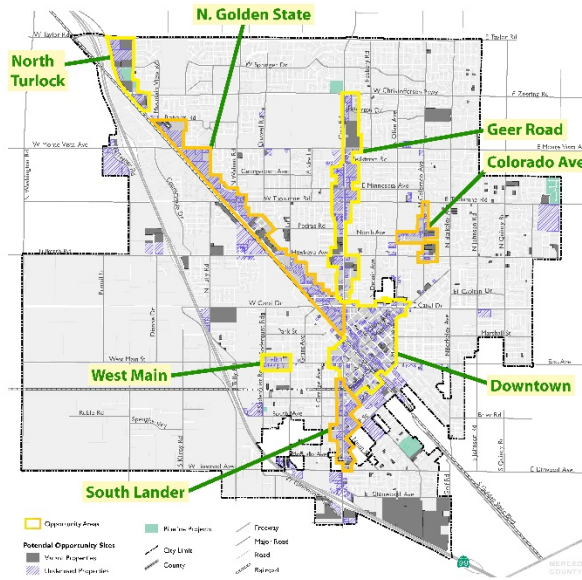

WHERE SHOULD TURLOCK PROMOTE NEW HOUSING?

The City of Turlock is updating our long-range plan (called the General Plan) to meet projected housing needs and improve quality of life in the city. These issues are closely linked. An adequate supply of reasonably priced housing is the foundation of a strong and growing economy and it also ensures that nurses, teachers, firefighters and other essential workers can afford to live in Turlock. Amidst the ongoing housing crisis in California, Turlock is required by law to plan for at least 5,802 new homes by 2031 to keep pace with housing demand.

The map at the right shows some locations with potential for new townhomes and apartments that can provide more affordable options students, seniors, and young people starting out.

Executive Summary

The Turlock Community Survey was conducted from February 1, 2024, to March 1, 2024, to provide residents, business owners, and people working or attending school in Turlock with an opportunity to share input that will inform strategies for Turlock General Plan Update. The survey focused in particular on five areas of Turlock with the greatest potential to accommodate new housing or other types of development over the next 10 years, and the questions were designed to solicit feedback that will help plan where new housing, employment, and shopping should be located and how to achieve other community objectives like improving transportation options, revitalizing older commercial streets, and preserving and enhancing neighborhood character. The survey was conducted in both English and Spanish. A paper version of the survey was mailed to all resident in Turlock.

City staff and consultants implemented a robust program of outreach activities to raise awareness of the survey and promote participation. Mailers were sent to every address in Turlock, with provisions to ensure that both homeowners and renters received notifications.

In total, over 1,501 paper survey responses were mailed back and received by City staff. This survey report documents the survey methodology, provides a profile of respondents, and presents key implications for the planning process. A full and complete record of all comments received is included in the Appendix.

SURVEY ORGANIZATION AND CONTENT

The survey was conducted in both English and Spanish, with paper versions available. Following key objectives were identified for the survey:

1. Inform residents, businesses, and people who work or go to school in Turlock about the purpose and need for the project and the legal requirements for the Housing Element Update;
2. Solicit community input to inform decisions about how and where to accommodate new housing and other types of development as needed to satisfy the City's RHNA obligations and community needs;
3. Garner responses from a wide variety of voices in the community to ensure a full range of perspectives is considered in preparing the General Plan Update.

Recognizing that many residents lead busy lives and may not be able to set aside time to participate in person, a paper survey was designed that displays maps and images of Turlock. The paper survey featured simple, user-friendly question types that allow participants to quickly grasp background information and provide responses. An introductory page provided a brief introduction to the project, framing the challenges and inviting survey responses to help inform strategies to address them. The survey was structured to allow participants to provide quick responses if they only have a few minutes to contribute or to take a deeper dive into issues if they have more time to spend. This approach is intended to maximize participation and allow people to provide meaningful input within time frame they choose.

Drawing on the findings of an analysis of land use conditions and trends in Turlock, the survey presented five subareas of the city with the greatest potential to accommodate new housing and other types of development, based on a consideration of land use characteristics, environmental constraints, and other hazards. Participants were asked to share their thoughts on whether each location is appropriate for housing or other types of development, what types could best be accommodated, and what improvements should be done in Turlock over the next 10 years. All survey questions were optional.

SUMMARY OF KEY FINDINGS

Priorities

- A common theme for all areas of Turlock, especially the Downtown area, was the need for improvement in addressing the homelessness population and general cleanup of the City.
- Respondents expressed the desire for a revitalization of Downtown, including new small business shops and restaurants, improved parking, and fewer fast food restaurants.
- Participants emphasized the need for roadway and sidewalk repairs in all parts of the community, noting Turlock could use upkeep and cleanliness throughout different areas.
- Many respondents echoed the theme of Turlock being a "Little Big Town" and hope to keep charity and hospitality of a small town with big city amenities.

Housing

- Respondents were generally supportive of new housing across the prior four opportunity areas, with the exception of Downtown Turlock.
- Community support for new housing was strongest in the North Golden State Road (64.9 percent) and South Lander (64.5 percent) opportunity areas, while the Downtown Turlock (46.9 percent) opportunity area received the least support.
- Though the general Downtown Turlock opportunity area received the least amount of support for housing, respondents indicated the highest level of support for a specific housing type in Downtown Turlock. About 67.4 percent of respondents indicated mixed-use housing above shops is an appropriate housing type downtown.
- Respondents voiced opposing thoughts for the future of Downtown Turlock: some respondents preferred building higher, more affordable housing, whereas other respondents hoped to keep the growth at an absolute minimum.
- Along the commercial corridors of North Golden State and Geer Road, respondents expressed support for higher density housing types. On North Golden State, there was slightly more support for 4-5 story apartments and condos, while on Geer Road, townhomes and duplexes/triplexes were preferred.
- For the West Main area, respondents expressed preference for small-scale housing types, with ADUs/granny flats, single-family homes, and duplexes/triplexes being the most preferred housing types.
- Respondents expressed support for a mix of housing types in the South Lander area, with mid-range density (duplexes/triplexes) receiving the most support, while single-family homes and garden apartments followed in that order.
- Respondents outlined areas outside of opportunity areas appropriate for new housing: Geer Road & Monte Vista Avenue, Geer Road & Hawkeye Avenue, Citywide vacant lots, Monte Vista Avenue, and West of Highway 99.

Environment

- Many respondents called for improvements to beautify Downtown. In addition to the roadway repairs, respondents would like to see green/open space, flowers and gardens, and an overall cleaner environment.
- Respondents were interested in pedestrian and bicycle infrastructure in the commercial corridors of Geer Road and North Golden State Road. Respondents called for protected bicycle lanes, repaved sidewalks, and creation of running/walking trails.
- For the West Main area, a number of respondents mentioned the need for neighborhood improvements, such as community amenities, new grocery stores, and landscape beautification. Respondents were interested in housing and businesses that blend with current neighborhood, as this area is small and special.

Quality of Life

- For most opportunity areas, survey respondents were very interested in seeing new or improved retail amenities and neighborhood attractions accompany new development, including grocery stores, markets, restaurants, coffee shops, and community activity centers. For North Golden State, Geer Road, and West Main in particular, respondents were in favor of new grocery stores.
- Many respondents expressed interest in creating, improving, and maintaining outdoor recreation opportunities, such as family-friendly parks, soccer fields, and community gardens. Especially in areas that are not currently developed with housing, respondents were eager to see family-friendly parks and open space included in future plans.
- Respondents referenced the need for restoration and rehabilitation of older buildings and homes in West Main area, as many buildings are abandoned, not kept, or worn down.
- For the North Golden State area, respondents envisioned a mixed-use corridor with new commercial and residential opportunities.

Analysis of Survey Responses

DEMOGRAPHICS

At the conclusion of the survey, respondents were asked to respond to a series of demographic questions asking them if they were residents of Turlock, their zip code, age, gender, and language.

Residence

Figure 1: “Are you a resident of Turlock?”

Respondents were asked if they were residents of Turlock. As shown in Figure 1 above, survey respondents were mostly residents of Turlock: about 1,392 respondents (95.7 percent) were residents from Turlock, whereas 62 respondents (4.3 percent) did not live in Turlock. Respondents who did not live in Turlock most likely own a business or property, as mailers were sent to every address in Turlock.

Those who indicated they live in the City of Turlock were further asked how long they have lived in their current address. Figure 2 shows that most survey respondents are long-time Turlock residents, with 58 percent indicating they have lived in Turlock for 11 years or more, and another 11.7 percent indicating they have lived in Turlock for between 8 and 10 years. In addition, 11.1 percent have lived in Turlock for between 5 to 7 years, 15.5 percent for between 2 to 4 years, and 3.6 percent for less than one year.

Figure 2: “How long have you lived at your current address?”

Figure 3: “Do you own or rent your home?”

Respondents were asked if they rent or own their home. As seen in Figure 3, the majority of respondents own their home (83.9 percent). About 12.1 percent rent their home in Turlock, while 5.6 percent responded they neither rent or own their home and specified what their living situation was. This differs from the tenure trends reported in 2022 in Turlock; about 53.2 percent of occupied housing units are owner-occupied, while 46.8 percent are renter-occupied.¹ Open-ended responses included employee-sponsored housing, senior retirement community, multi-generational housing, and property manager at self-storage. Other responses are included in Appendix B: Open-Ended Responses.

Zip Code

Respondents were asked to provide their home zip code. As seen in Figure 4, the majority of respondents live in one of two zip codes: 95380 and 95382. 95380 covers the southern portion of Turlock, south of North Golden State Boulevard and Hawkeye Avenue, while zip code 95382 covers the northern portion of Turlock, north of North Golden State Boulevard and Hawkeye Avenue. About 94.9 percent of respondents live in Turlock zip codes. The zip code with the highest portion of respondents at 54.9 percent is 95382, while 95380 follows at 40.1 percent. Respondents indicated other zip codes in California (5 percent), one of which being 95316 in Turlock, and distinguished that they live in other parts of the state but have rental properties in Turlock.

Figure 4: “What is your zip code / neighborhood?”

Age

Respondents were asked to provide their age. As seen in Figure 5, the survey did capture significant older adult voice, as the largest single age group of survey respondents (27.2 percent) was 65 to 74. The second largest age group was those 75 years and older (19.1 percent). In contrast, survey respondents aged 34 and under make up 6.9 percent of respondents. This may be because the survey was distributed by mail and paper, whereas younger generations are more likely to fill out surveys digitally.

Comparatively, survey age trends differ from the current age trends in Turlock as reported in 2022. The age group 65 to 74 made up 8.6 percent of the population, while the 75 and older age group less at 5.5 percent. The largest age group in Turlock are those under 18 years at 28.9 percent, a contrast to those who filled out the survey. Overall, the 34 and under age group could be represented more, as 51.2 percent of Turlock’s overall population is under the age of 34.²

² US Census Bureau (2022), American Community Survey 5-year estimates, Table S0101.

Gender

Respondents were asked to provide their gender. As seen on Figure 6, about 53.8 percent of survey respondents were female, while 43.4 percent of survey respondents were male. About 40 respondents (2.8 percent) preferred not to say. Overall, this data aligns with Turlock’s overall population, as there are more females in Turlock (52 percent) than there are males (48 percent).³

Figure 6: “What is your gender?”

Language Spoken at Home

Respondents were also asked to indicate what language they speak in their home. As seen in Figure 7, the vast majority of respondents (94.2 percent) speak English as their primary language at home. About 9.2 percent of respondents indicated they speak Spanish at home, while 5.8 percent indicated they speak another language not listed on survey. It is important to note that respondents were able to check all responses that applies as many people speak more than one language at home, hence why the percentages do not sum 100 percent. Respondents listed Assyrian, Portuguese, and Punjabi as other languages spoken at home.

COMMUNITY SURVEY

In total, about 1,357 participants responded to this question, while a total of 144 participants skipped the question. The question was asked in open-response format so participants were able to list as little or as many important things as they would like. About 48.2 percent of participants (654 people) noted roadway repairs as the most important thing that should be done to improve Turlock over the next 10 years, while 29 percent (394 people) of participants mentioned homelessness.

Participants emphasized the need to repave roads and sidewalks in all parts of the community, expressing hope for upkeep and cleanliness of the City. Many participants vocalized the caring of people experiencing homelessness, particularly by providing resources and housing. In general, participants expressed improving the City by cleaning up homelessness encampments, repairing roads and sidewalks, providing better water quality, stimulating job growth, and developing affordable and healthy grocery stores.

Figure 8: “What is the most important thing that should be done to improve Turlock over the next 10 years?”

Respondents were asked to rank seven different issues for the City as shown on Figure 9. Respondents ranked taking action to prevent homelessness before it happens and addressing the needs of the homeless in Turlock as the most important issue (28.8 percent). This data aligns with the answers to the previous question about things that should be done to improve Turlock over the next ten years: homelessness was a top two priority for improvements. Further, addressing the rising cost of housing was also a top priority by respondents (21.8 percent). Respondents also noted that stimulating job growth and economic development in the City was a top three priority in addition the aforementioned issues.

Respondents were also able to add other priorities for the City in the open-response portion of the question. Many of the issues highlighted in Figure 8 were also discussed in this question, specifically maintenance and improvement of roads and sidewalks, as well as development of grocery stores. Respondents also emphasized the need for entertainment/activities for family and kids, such as swimming pools, parks, and Boys & Girls Club.

Figure 9: “Thinking about priorities for the City, how would you rank these issues? (1 being the most important and 7 being the least important)?”

Respondents were asked if they agreed or disagreed with the following statements in the City of Turlock, as shown on Figure 10 below. Most respondents agreed (75.2 percent) with many people living together in one home because it is too expensive to rent/buy on their own, highlighting overcrowding and affordability as pressing issues. Most respondents (70.4 percent) also agreed that essential workers like nurses, teachers, and firefighters can afford to live in Turlock.

More respondents disagreed that the current housing market in Turlock promotes local job growth (53 percent) than those who agreed with the statement (31 percent), suggesting there can be changes to housing market that can promote job growth. Respondents were split evenly when asked if children can afford to stay in the community as they grow up and start living independently: about 48.8 percent agreed, while 46 percent disagreed.

Most respondents also agreed that landlords and homeowners maintain their properties in good condition (63.1 percent), while slightly less respondents agreed that each month, they have enough money for other things after paying rent/housing costs (57.8). This signals that the general upkeep and maintenance of housing in Turlock is not as large of an issue as the cost of living and housing affordability.

AREA-FOCUSED QUESTIONS

Question 4: “Do you support adding new housing in the areas shown on the other sheet?”

Figure 11 shows the distribution of responses for each opportunity area for those who responded to this question. The two areas with the most support for new housing were North Golden State and South Lander, which received similar levels of support at 64.9 percent and 64.5 percent, respectively. The West Main area followed with 59.9 percent of support, Geer Road had 58 percent of support, while Downtown Turlock had 46.9 percent of support. This suggests respondents who answered this question were generally supportive of new housing across the prior four opportunity areas, with the exception of Downtown Turlock.

Figure 11: Responses to Housing Support Per Opportunity Area

Question 4: “If housing is built here, what types of housing do you think should be built? Check all that apply.”

An example photo of housing type was included to suggest to respondents what this might look like in practice. Figures 12 through 16 display the distribution of housing preferences for each opportunity area. The largest percentage of support for any housing type across the five areas was for mixed-use with housing above shops in the Downtown Turlock area at 67.4 percent, while the least supported housing type was duplexes and triplexes in Downtown Turlock at 25.2 percent.

For the North Golden State area, the most supported housing type was 4-5 story apartments and condos at 49.9 percent, followed by townhomes at 46.5 percent, showing support for highest heights in this area. Overall, four housing types had similar levels of support for the North Golden State area, as shown on Figure 12. Namely, 2-3 story apartments and condos (45.1 percent), single-family homes (43.1 percent), garden apartments (43 percent), and duplexes/triplexes (42.5 percent) were all between a 2.6 percent margin of each other. Lastly, ADUs/granny flats (36.8 percent) and mixed use with housing above shops (29.3 percent) received the least amount of support in the North Golden State area. Overall, North Golden State area generally received the highest level of support for apartments and a denser product, with a mix of both single-family and multi-family residential environed.

Figure 12: North Golden State Housing Preferences

For the South Lander area, respondents preferred smaller scale residential, such as duplexes/triplexes (46.7 percent) and single-family homes (46.4 percent) over apartments and condos (Figure 13). A such, 2-3 story apartments and condos received 43.8 percent support, similar to garden apartments, which received 43.1 percent of support. Similar to all areas, except Downtown Turlock, the least supported housing type for South Lander was mixed use with housing above shops at 31.9 percent.

Figure 13: South Lander Housing Preferences

For the West Main area, respondents preferred single-family and small-scale residential overall, notably different from the denser housing types preferred in North Golden State. As such, the most supported housing type was ADUs/granny flats (47.5 percent), followed by duplexes/triplexes (44.6 percent), and single-family homes (44.8 percent), which had an almost equal level of support (Figure 14). Garden apartments received 40.9 percent of support, townhomes at 37.7 percent, 2-3 story apartments and condos at 36.4 percent, and 4-5 story apartments and condos at 34.6 percent. Similar to North Golden State, the least supported housing type in the West Main area was mixed use with housing above shops at 29.3 percent.

Figure 14: West Main Housing Preferences

For the Geer Road area, respondents preferred mid-range density housing types more than single-family residential or high apartments. The most supported housing type was townhomes at 50.8 percent, followed by duplexes/triplexes at 47.1 percent. Both housing types of 2-3 story apartment and condos and garden apartments received similar levels of support at 46.2 percent and at 44.2 percent, respectively. Single-family homes had 43.7 percent of favor, ADUs/granny flats had 39.4 percent, and 4-5 story apartments and condos had 39 percent. Contrary to the support for mixed use with housing above shops for Downtown Turlock, this specific housing type had the least amount of support in the Geer Road area at 36 percent (Figure 15).

Figure 15: Geer Road Housing Preferences

For the Downtown Turlock area, respondents favored mixed-use with housing above shops (67.4 percent) over all other housing types, noting the preference for new businesses and residential types. Respondents followed with accessory dwelling units (ADUs)/granny flats at 39.4 percent (Figure 16). The two least supported housing types were 4-5 story apartments and condos at 27.3 percent and duplexes and triplexes at 25.2 percent, respectively.

- address homeless problem
- clean area up
- sounds at crosswalks

Question 6: “Are there other areas you think are appropriate for new housing? Please identify with a street name or landmark?”

- I believe the county islands should be targeted for expanded housing and of course county budgets tapped to promote it. Much of these properties are under utilized for their prime locations.
- South Turlock off Golden State Boulevard
- In the outer areas of Turlock
- All
- Maintain what we have before you add more liability. People in power need to worry about making things better not creating more problems with wasteful spending. Expansion is good but only when you can afford to maintain what you have. That's why we left California.
- East - East Ave
- Out west of Tegner to Washington
- Along Taylor Road. Not all homeless are equal. We need to give priority to Vetans. Drug testing must be a prerequisite along with providing treatment programs.
- I would like to see Turlock become the best city in the valley. I do not believe that we should be building low income housing.
- The senior citizens should be aware when places come up for rent where they are paying a high cost to live. They should be treated better.
- No

Question 6: “Are there other areas you think are appropriate for new housing? Please identify with a street name or landmark?”

- No more houses, with people moving here, will have to build on every piece of land.
- Drive through Ripon, notice roads, sidewalks, downtown, medians & cleanliness-Turlock was like this now it is more like Modesto, a once nice city that turned ugly
- Make sure the world knows that Turlock is not a sanctuary city for the people who have been invading our country with no regard for our laws & rule of law!
- Fix the traffic lights first before addressing new housing, more people. More people=more traffic & terrible lighting system will take us hours to get around and more accidents.
- Need more apts like Denair Maner; housing for low income, seniors, handicapped; if it wasn't for D Maner I might be homeless, I had to sell my mobile home when they raised the space rent
- Some potential areas for housing-Taylor Rd, near the ARCO, with a cross intersection at Golden State (Golden State to Taylor Rd)
- We need more police before more growth! No more houses & no more low income houses, single family houses only!
- We don't need anymore housing - brings more problems for us all
- No
- I don't want to lose the "buffer" zone from Ag. We need farm land and a buffer between housing. Where will you get the water for new housing, is sewer system prepared for new housing?
- Every new development should have a duplex at street intersection; use eminent domain to develop empty lots/parcels within the incorporated area of the city
- West Main & South Lander are appropriate; other areas too congested already
- Turlock does not need more new housing; need to focus more on water system; no more new homes; tired of water, clothes smelling like chlorine
- If government assistance is provided they should be required to be drug & crime free
- None limit growth
- No
- Note: Livermore is a good example of town houses & their city's redevelopment
- We don't need more housing-this use to be a good town & the bigger it gets crime rises
- Land along Colorado south of Hawkeye
- No
- Stop adding new housing; improve street conditions, sidewalks, bike lanes; no more drive thru/fast food restaurants
- No
- County pockets
- No
- No
- No more
- Whatever financial budget assigned to homeless homes please divert to taxpayers kids future development
- Stop taking farm land out of commission
- N. Golden State
- There is a lot of free space to build housing west of Hwy 99
- South of E Glenwood; expand NE Turlock, south of Taylor, affordable homes w/o consideration of required sewer & water there; NW of Turlock W of 99 & S of Taylor Rd; s/b market driven not forced through government regulation & subsidy.
- Open field at Geer & Christofferson; investment in own homes; wealthy buy homes to rent, prevents those able to buy from buying a home causing economic disparity
- No idea
- South of East Avenue

Question 6: “Are there other areas you think are appropriate for new housing? Please identify with a street name or landmark?”

Wherever it would be easy for redevelopment; construction of new houses & shopping areas
Near Quincy
East side towards Denair; Keep industrial west of 99, develop schools & parks east, with Taylor/Monte Vista/Fulkerth as access
E Monte Vista Ave, between Geer & Johnson
Hawkeye & Geer; corners around Taylor Rd; around Costco, South Golden State, etc
NW corner Geer/Hawkeye; nice condo on east side; 2-3 story apartment Corner Hawkeye & Geer; mixed use housing Golden State & Olive (old Jura's)
Vacant areas off of E Main in the vicinity of 1000 E Main going north
GS where cannery used to be and empty, no business or buildings tear down; focus on building houses where businesses don't exist, don't need to tear something down to put same thing up
Geer & Hawkeye
1. large NE corner at Geer & Monte Vista; 2. large NW corner lot-Geer & Hawkeye
No
No input
Allow more expansion of city boundaries to all more homes growth toward Denair & west of Costco
Southeast master plan needs to be developed
Promote more in fill in all areas
Expand the city limits/borders
Salida Golden State lado sur
Northeast area is a blanket of R1 - duplexes and granny flats would make it more recession proof, needs grocery store and small shopping area
expand City boundaries off of Tuolumne toward Denair with middle income housing options
not affordable housing. that will only draw more homelessness
see if churches and faith centers would be willing to downsize and sell their buildings or land for the purpose of low income housing.
South Golden State
Geer going North across and north of CSUS. affordable retirement vilages or adu's
Linwood Ave
along Monte Vista toward/past Ceres and toward Denair
areas that do not impact agriculture
single family home behind Food Maxx
NE corner Geer & Monte Vista
west main
Vacant school district sites
North east Turlock; East of 99 & west of Geer Rd.
West Main west of Fransil
Establish the boundaries of the city; walking areas on the side of Geer & Taylor Rd
Empty lots on Del's Ln across from Donnelly Park, more apartments could go there
W Main to the west & Linwood to the west; lots of multiple family units with access to freeway
Bring Keyes into Turlock & do multi-family there
In Fill vacant lots
Build homes behind college not apartments
No
Triangle property at Colorado & E Main

Question 6: “Are there other areas you think are appropriate for new housing? Please identify with a street name or landmark?”

Don't need more housing that bring more cars/traffic congestion; need more affordable housing (rents/housing too high); building more places no on can afford won't help
North Golden State
None that I can think of
Not being specific, but within city limits (older areas) there is considerable open space that could and should be developed.
No
Any unused land - fill in projects
Corner of Georgetown & Crowell; more duplexes on corner lots in neighborhoods that are single family hoes; build-up multi-story housing is better than sprawl
Westside of I99
N/A
No opinion
West side
Allow pets in certain parks-adjacent to new housing
Generally need housing that is suitable for first time homeowners - affordable
Fulkerth Rd to Linwood Ave (south)
N/A
Parcel by the hospital
Marshall/Thor parcels
N/A
Land on Quincy and Monte Vista north of Larsa banquet Hall, Northeast corner of Geer and Monte Vista Northwest corner of Monte Vista and Walnut
West side of Highway 99
There are lots of open lots around Countryside Drive, though Commercial around them, could have mixed-use shops with housing above shops or town houses nearby
Help people build ADUs
LEAVE ALONE AND RESIST STATE MANDATE
Sr housing near shopping, medical ctrs & hospital; housing for students & commuters in north Turlock; housing for internationals/immigrants should be near Fulkerth - W Main (by theater)
More housing is not in Turlock's best interest, s/b gradual; state mandates aren't in best interest of Turlock's small town feel & safety; growth more crime/gangs/depreciation of current home values
No - Stop building apartments in single home residential areas
Empty lots throughout Turlock, vacant for decades, surrounded by housing: Fulkerth & Tully; Johnson & Hawkeye
I am not in support of new population if we don't solve the water problem.
Not much land left in Turlock; maybe Denair & Turlock can start getting closer to each other "to fill the gap". But that will depend on the county, unsure how that works.
No - any new housing should be single family and not a developer new housing is destroying Turlock
East Turlock; South-East Turlock; South Golden St
East Turlock; South-East Turlock; South Golden St
East Ave towards Santa Fe
More low income housing & services; less-way less high cost; pushes up the cost of living for everyone & then you get more homeless
You already screwed up by building all the shopping stores out by Home Depot. What kind of moron didn't plan ahead for all that traffic.

Question 6: “Are there other areas you think are appropriate for new housing? Please identify with a street name or landmark?”

none
Taylor Rd needs improvement, potholes & flooding during rainy days
Vary areas for shopping center; bad choices were made when EVERYTHING was developed on Countryside Dr, now congested all the time
Recommend building up (apartments) rather than building out (single family homes)
Geer & Monte Vista, across from the college
None
More infill projects before expansion of city
No - stop building apartments in single home residential areas
N/W corner Geer & Hawkeye; north of Hawkeye between Colorado & Berkeley
East of Taylor Rd & Geer Rd
Don't know
More on Fulkerth; also more on Countryside
The north side has enough homes; the wealthy or those above 120% AMI can buy a home, those 0-80% AMI have the most difficulty-build homes for them.

Geer and Christoffersen

Current available areas are not desirable to live unless one moves to the eastern boundary

W Lindwood to Main; Lander to 99; infill potential scattered throughout; annex county islands

Reduce red tape/fees; low income can't afford to pay high fees; perhaps a 2 year large fee reduction to encourage building - "Permit Fee Holiday" period

North Turlock, rest of Turlock is a shit hole

This is a useless survey; need to provide a basic context for citizens to understand the Turlock environment & what the options mean, hold a forum, or already may be planned, or this is a pro forma exercise.

Lower existing housing costs; build housing away from business area; promote family & communities

New development will make Turlock too crowded; Turlock has a nice feel of a small city, new homes will lose that, crime will increase

Planning Commission Study Session Preliminary
Sites Inventory for the Housing Element

July 18, 2024

Meeting Objectives

- Provide an overview of requirements for sites inventory
- Recap community outreach and process to date
- Present preliminary sites inventory and key strategies
- Receive feedback from Planning Commission

Presentation Outline

- Housing Element Background
- Capacity Under Current Zoning
- Community Outreach and Site Identification
- Strategies to Accommodate RHNA
- Discussion

Housing Element Background

Housing Element Overview

- State-mandated element
- City's plan for addressing local housing needs
- Updated on an 8-year cycle
- Subject to statutory requirements
- Mandatory review by Dept. Housing & Community Development (HCD)

Key Housing Element Components

- Inventory of available sites for housing
- Projection of realistic capacity
- Assessment of housing needs, constraints, and “fair housing” issues
- Program of implementing actions

What is RHNA?

- RHNA = Regional Housing Needs Allocation
- Total number of new housing units that City must plan to accommodate for 2023 – 2031 cycle
- Separated into four affordability levels:
 - Very Low < 50% area median income (AMI)
 - Low 50 – 80% AMI
 - Moderate 80 – 120% AMI
 - Above Moderate > 120% AMI
- Stanislaus County AMI = \$92,600 (family of 4, 2022)

Turlock RHNA Allocation

Turlock RHNA Allocations					
CYCLE	VERY LOW INCOME (<50% of Area Median Income)	LOW INCOME (50-80% of Area Median Income)	MODERATE INCOME (80-120% of Area Median Income)	ABOVE MODERATE INCOME (> 120% of Area Median Income)	TOTAL
6th (2023-31)	1,305	903	1,096	2,498	5,802

Requirements for Inventory and Site Suitability

- City is required to zone for sufficient capacity to meet RHNA
- Special requirements for lower income RHNA sites
 - Site size parameters (0.5 to 10 acres)
 - Absence of environmental constraints
 - Proximity to transit
 - Availability of infrastructure and utilities
- Must affirmatively further fair housing
- Past performance to demonstrate viability

Realistic Capacity Projections

- 35 dwelling units per acre (du/ac) in Downtown Core and High Density Residential
- 22 du/ac for non-vacant sites along commercial corridors

Site Area: 12 acres
Project Density: 29 du/ac

Site Area: 8.58 acres
Project Density: 30.4 du/ac

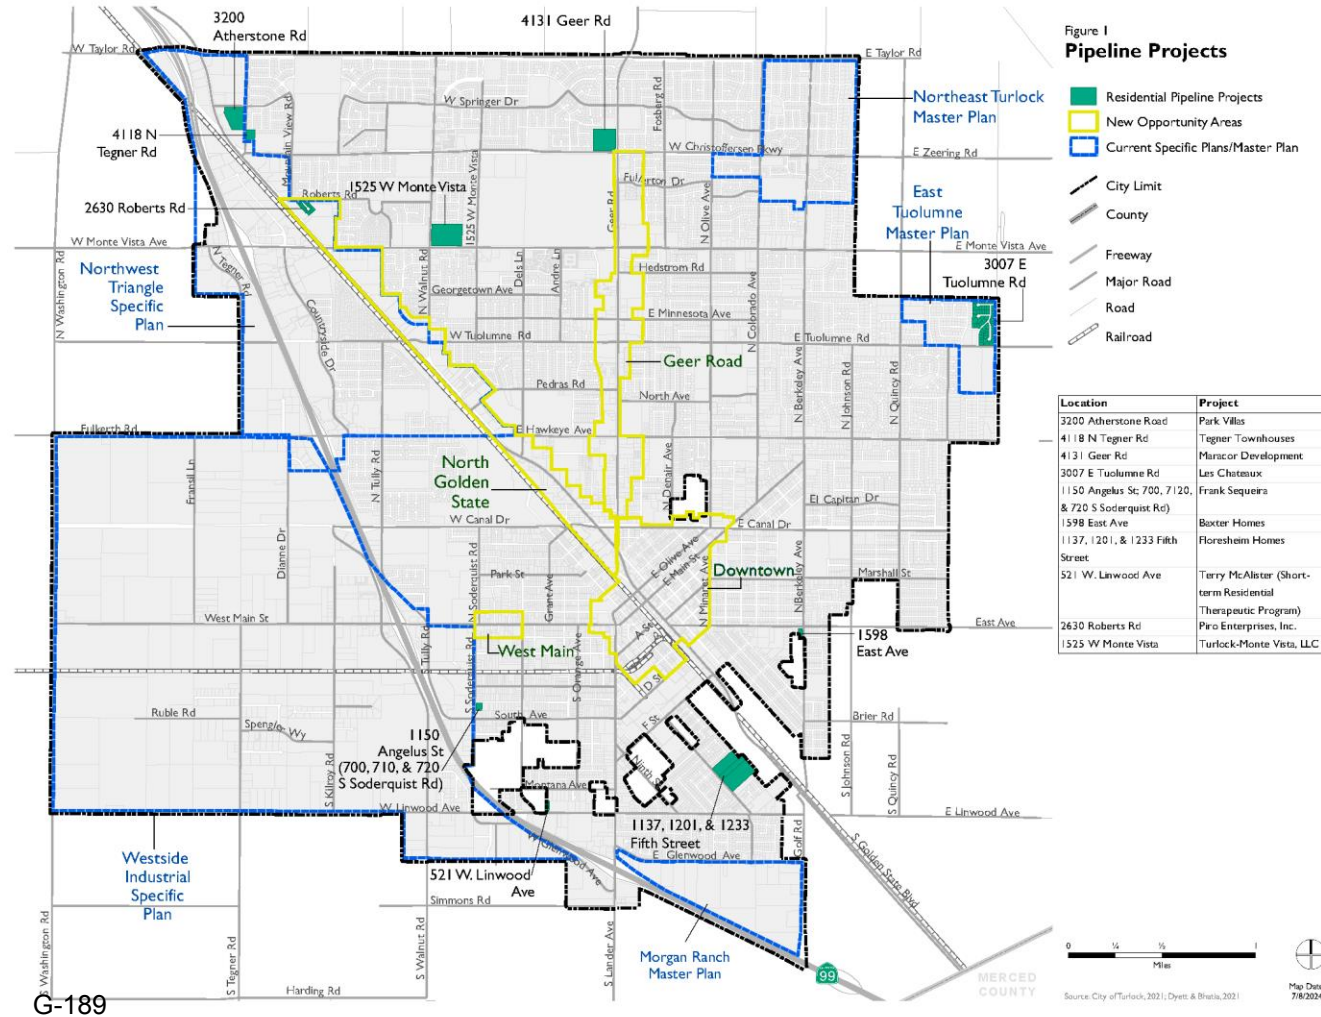

Capacity Under Current Zoning

Pipeline Projects

- Projects permitted and constructed after June 2023 can be counted toward RHNA
- Ten projects recently approved or currently under construction in Turlock

Very Low and Low	Moderate	Above Moderate	Total Capacity
443	410	238	1,091

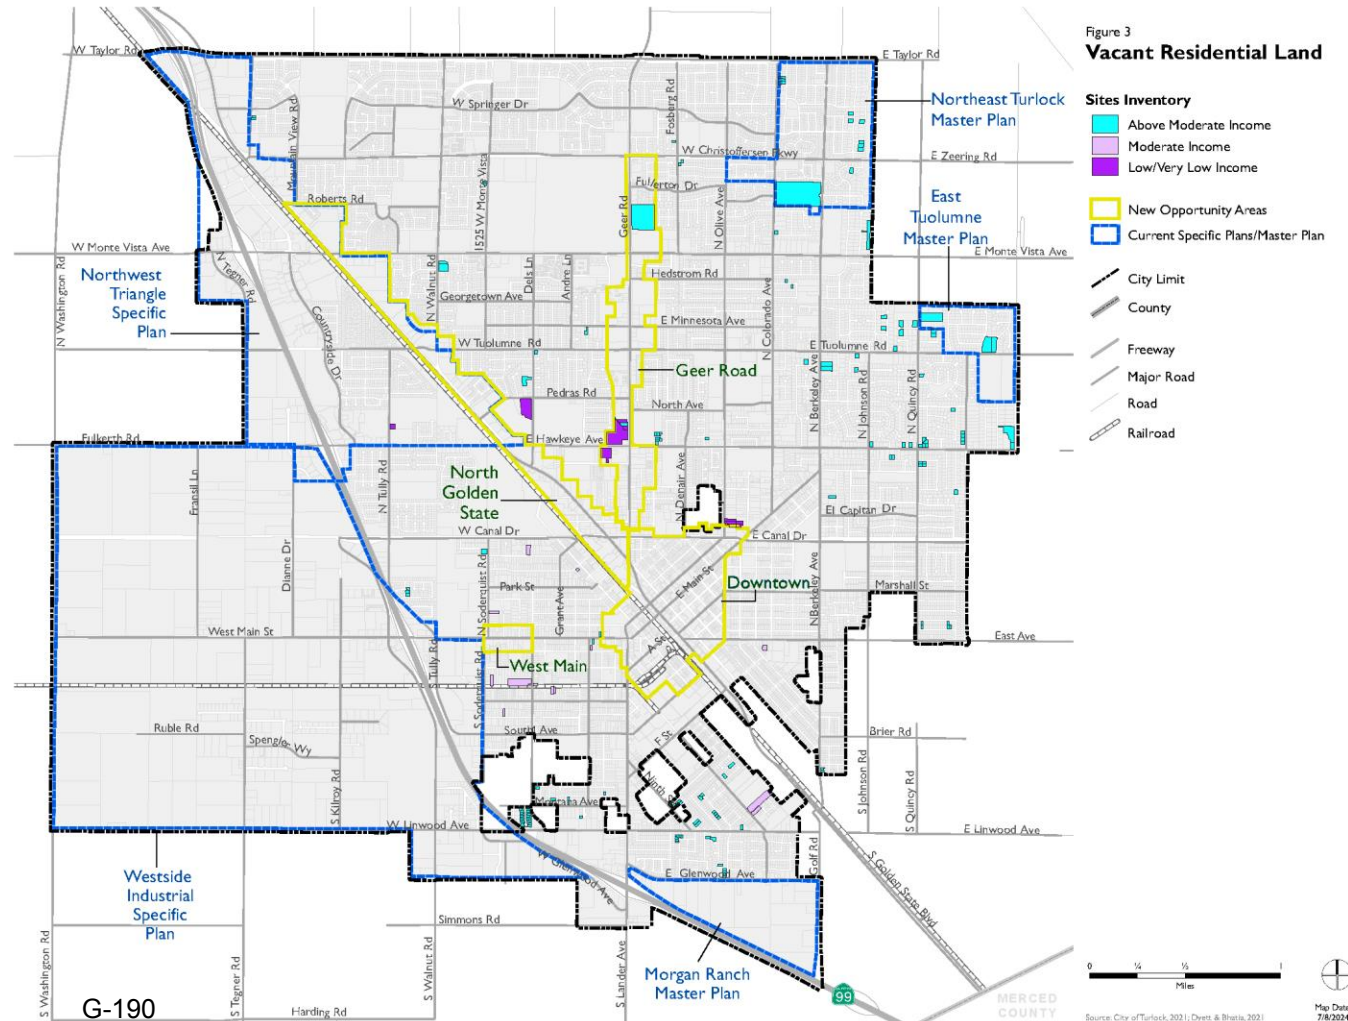

Vacant Residential Land

- 177 vacant residential parcels
- General Plan Land Use and affordability:
 - High (15-40 du/ac) - Lower Income
 - Med (7-15 du/ac) - Moderate Income
 - Low/Med, Low, and Very Low - Above Moderate Income RHNA

Very Low and Low	Moderate	Above Moderate	Total Capacity
497	101	763	1,361

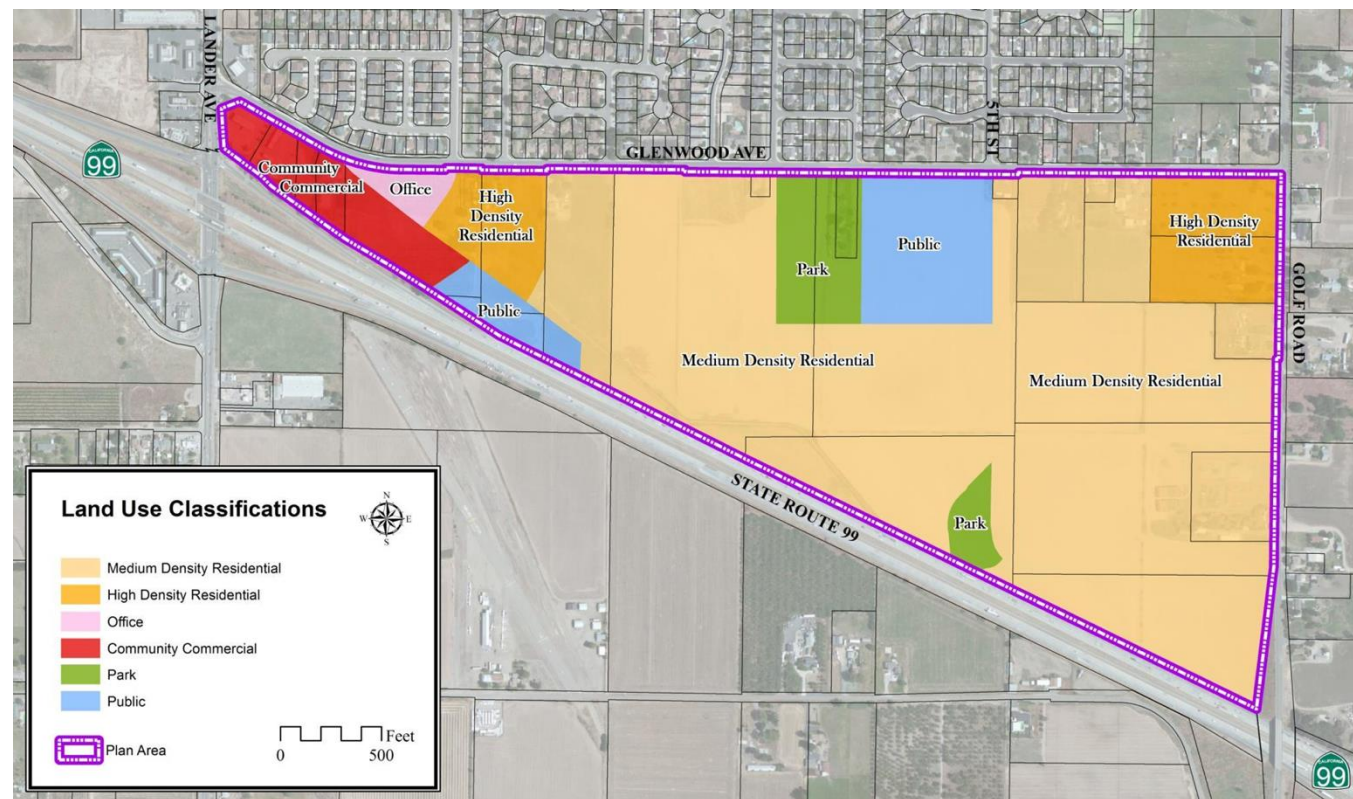

Morgan Ranch Master Plan

- MDR (120 acres) envisions single-family homes and duplexes
- HDR (15 acres) envisions apartment, townhomes, and condominiums

Very Low and Low	Moderate	Above Moderate	Total Capacity
144	196	985	1,325

Downtown

- Capacity for new housing on vacant and underused parcels downtown
- High density permitted in core, Low/Med permitted in Transitional and Office-residential districts
- Lower income RHNA assigned to sites meeting criteria in State law

Very Low and Low	Above Moderate	Total Capacity
492	595	1,087

Accessory Dwelling Units

- ADUs can count toward RHNA
- On average since 2018, the City had issued construction permits for 8 ADUs each year
- Increase in permits since 2021, so projection is for 10/year for a total of 80 by 2031

Recent ADU Approvals

Year	ADU Building Permits Issued
2018	4
2019	4
2020	2
2021	5
2022	12
2023	8
Total	47
Annual Average (2018-2023)	7.83

Summary of Capacity Under Current Zoning

Community Outreach

Opportunity Area Identification

- Need to identify additional locations for lower and moderate income housing
- Areas shown at right have clusters of vacant and underused properties with potential for housing
- Community survey gauged community sentiment on new housing in these areas

G-196

Community Survey Recap

- Objective: collect community input on how and where to accommodate new housing and address other community priorities
- Available from February 1 and March 1, 2024
- Paper survey mailed to over 30,000 addresses in Turlock, including property owners and renters
- Over **1,500 survey responses** received

The City of Turlock
Housing Element Update

Community Survey

We want to hear from you!

The City of Turlock is undertaking a targeted update to elements of our long-range plan (called the General Plan) to comply with new State law. Turlock is required by law to plan for at least 5,802 new homes by 2031 to keep pace with housing demand and to incorporate strategies for building resilience to natural hazards and addressing disparities between neighborhoods. The effort will focus on meeting projected housing needs, addressing risks from natural hazards, and improving quality of life in disadvantaged neighborhoods of the city. We want to hear from you to make sure the updates to these elements reflect the priorities of our community. Please take this survey and share your thoughts on how to address these issues and opportunities we face as a community.

The survey should take 10 minutes and you could win one of three \$100 Visa gift cards by participating! Just complete the survey and enter your e-mail on the last page. The survey will remain open until March 1, 2024.

Please return this survey by mail no later than March 1 2024, or scan this QR Code to access the project website.

“What language do you speak at home?”

“How long have you lived at your current address?”

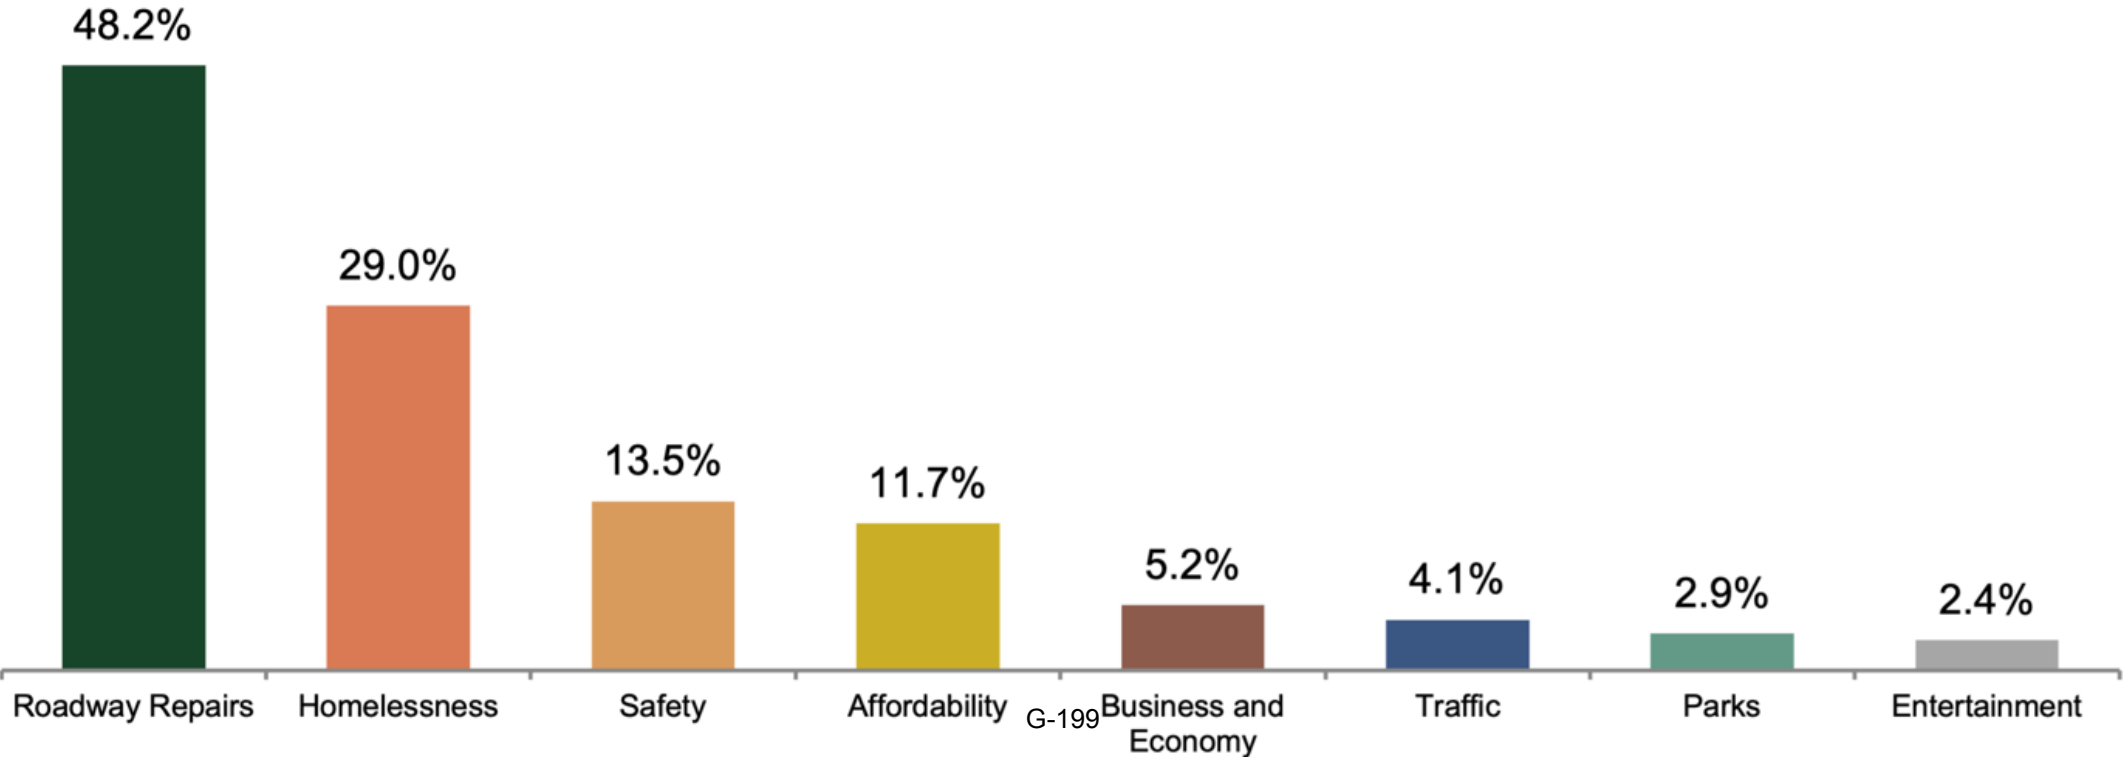

“What is your age?”

Survey Results

“What is the most important thing that should be done to improve Turlock over the next 10 years?”

Survey Results

“Do you support adding new housing in the areas shown on the other sheet?”

Rezoning Strategies

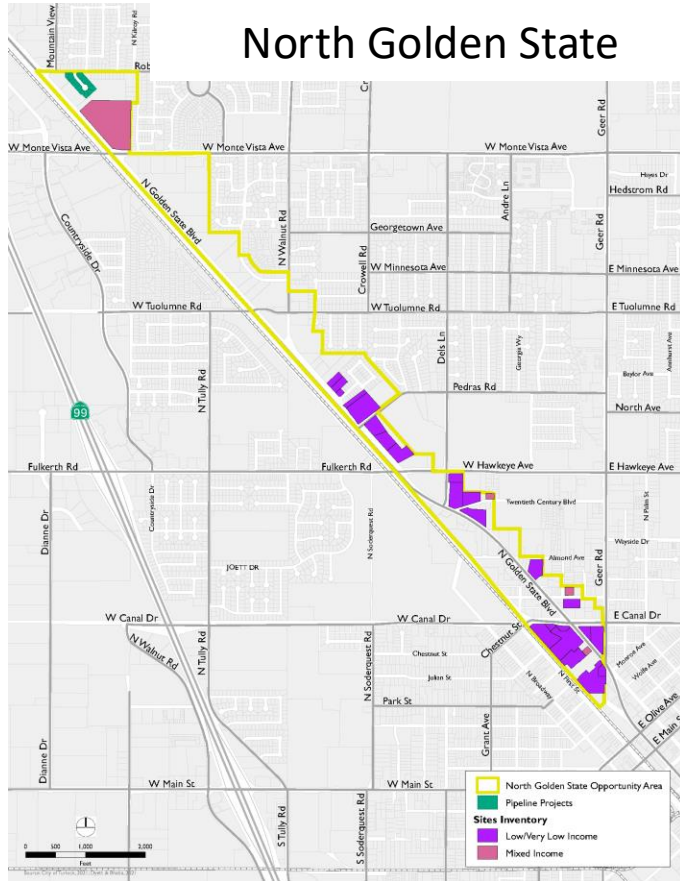

Workforce Housing Overlay

- Create a Workforce Housing Overlay that applies to underutilized commercial properties in 3 opportunity areas
- Owners continue to have right to develop commercial consistent with base zoning, but have option to build housing if they want
- Objective: meet RHNA obligations and provide housing for service workers, teachers, public servants and others who work in Turlock and earn less than 80% AMI

- Overlay creates adequate capacity to meet RHNA obligations at all levels with a buffer
- State recommends a buffer of 15-30%
- Buffer required in case some sites don't develop at densities anticipated

Turlock Preliminary Inventory

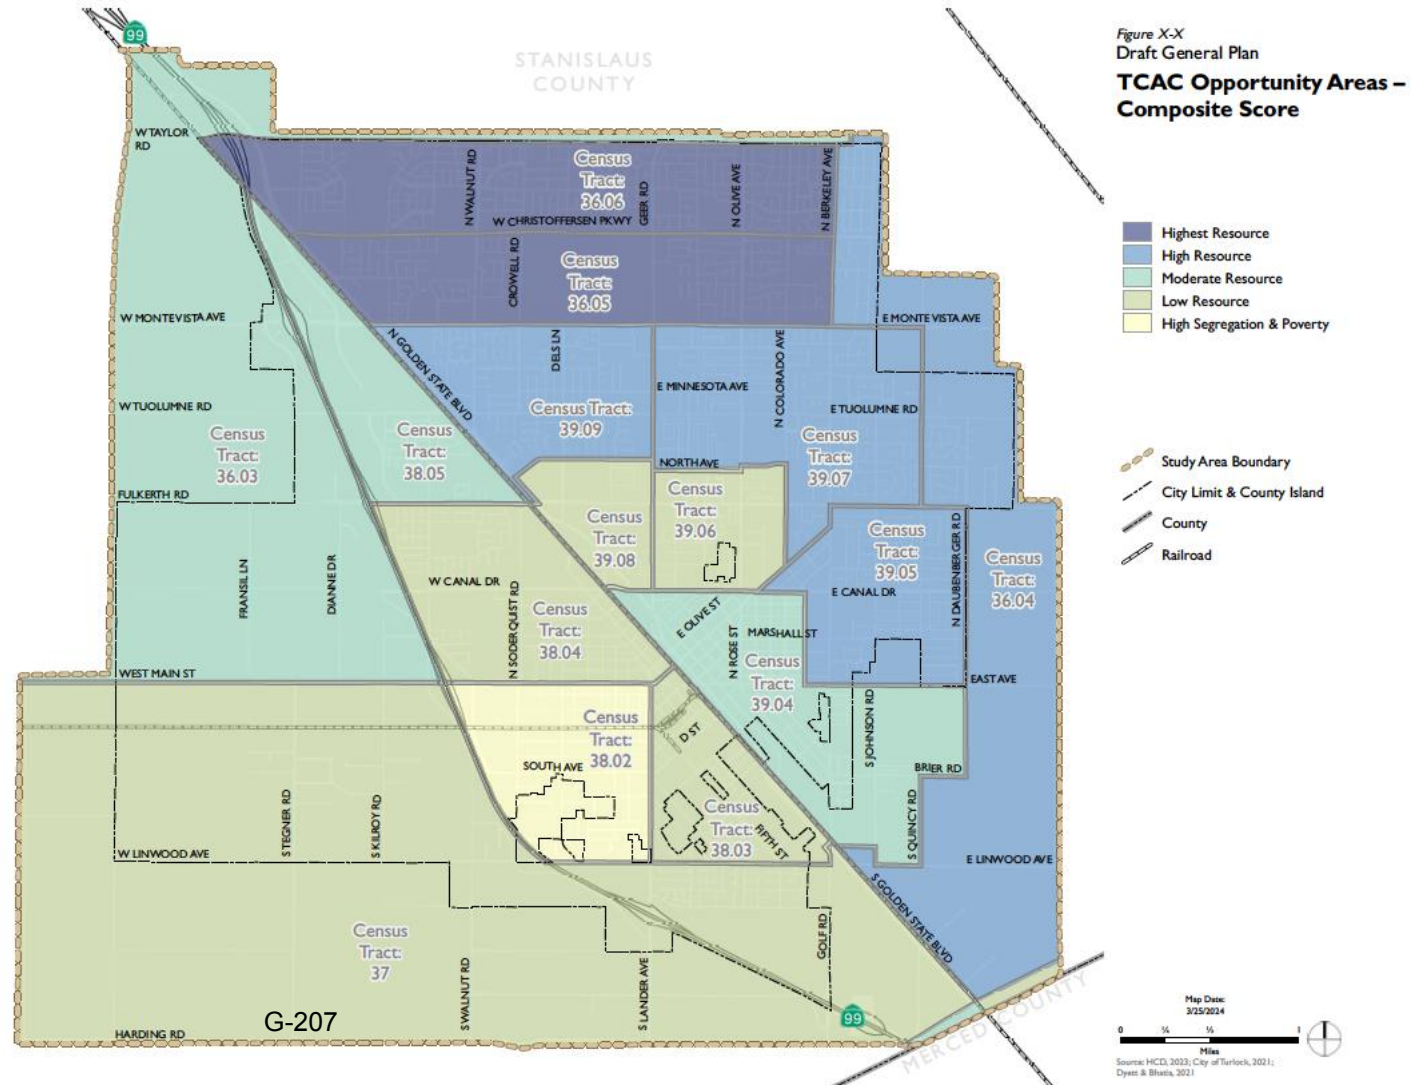

- Map of sites shows distribution of sites
- Lower and Moderate income sites concentrated near transit and services per State guidance

Additional Strategies

Purpose and Need

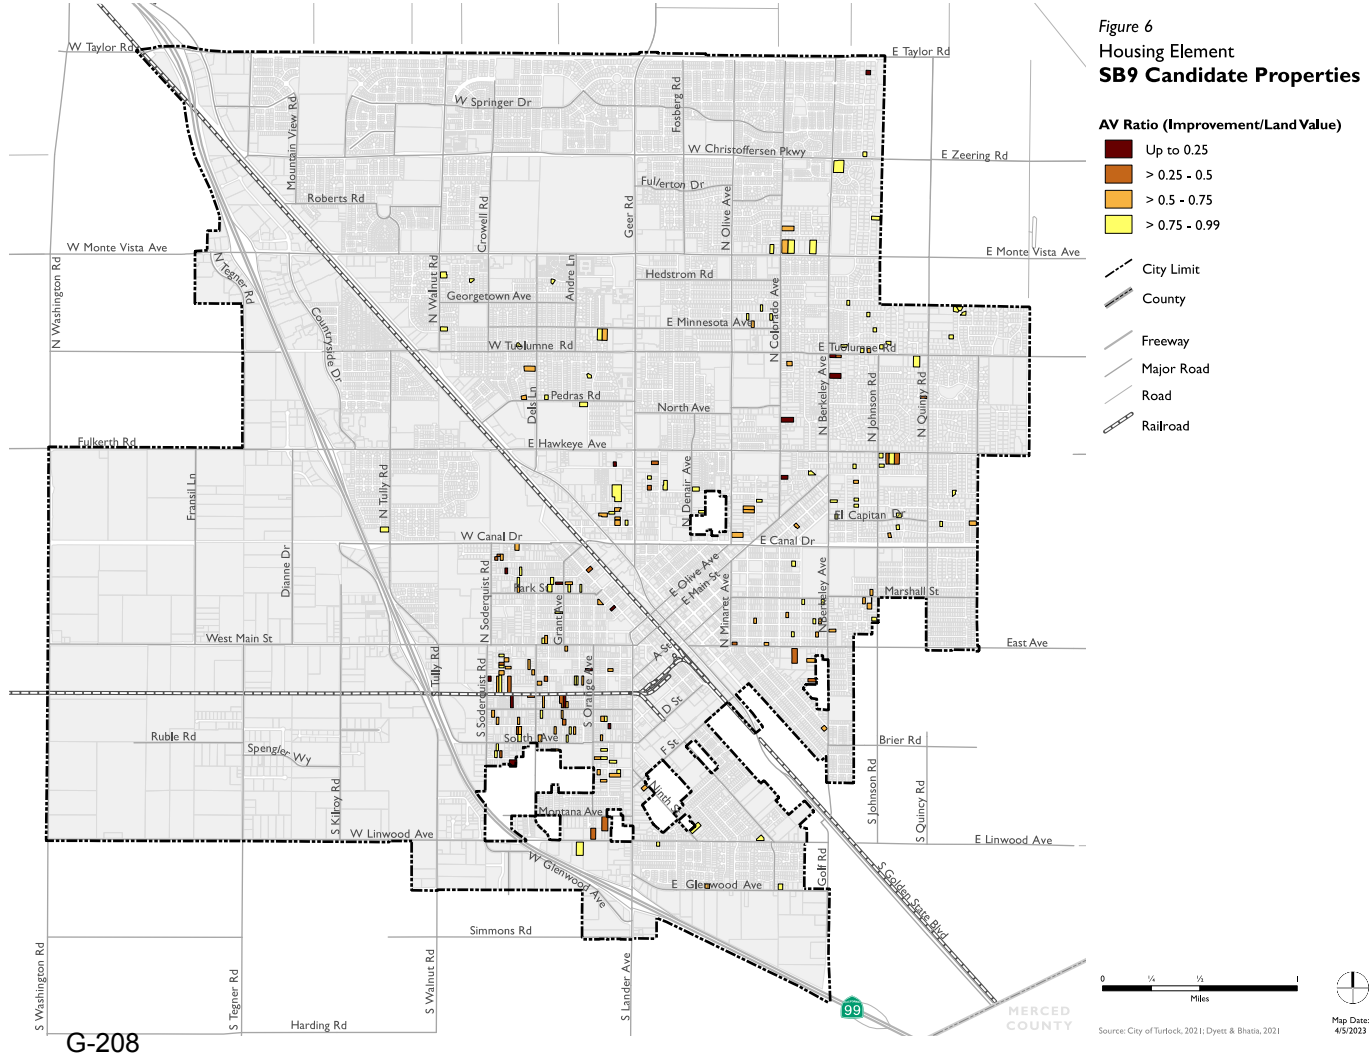

- State law requires that sites inventory expand housing opportunities for disadvantaged groups in high resource areas

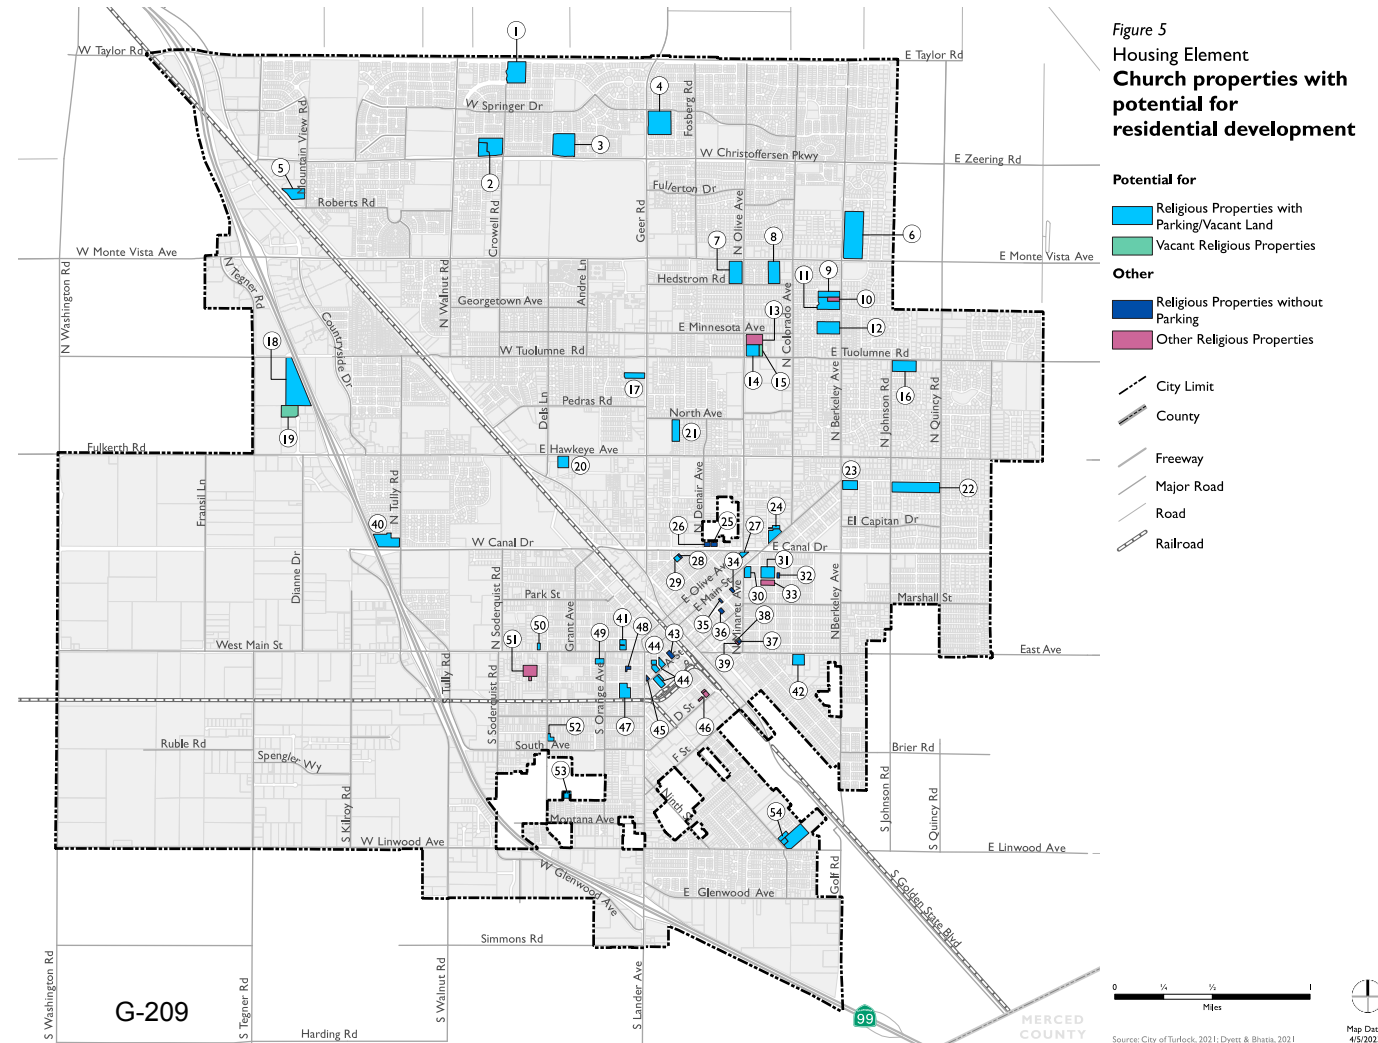

SB 9 Housing

- Senate Bill 9 enables homeowners to split their single-family residential lot into two separate lots and/or build additional residential units on their property

Congregational Overlay

- New State law provides incentives to religious organizations to develop affordable housing
- Over 40 religious properties throughout Turlock
- Strategy: overlay that permits the development of affordable multifamily housing on religious properties if they choose

Discussion

Discussion

- Are the sites and densities proposed appropriate to include in the Draft Housing Element?
- Are there other sites or areas that should be included in the inventory?
- Should the Draft Housing Element incorporate an **SB9 housing ordinance** and/or a **congregational housing** overlay that provide property owners with options to develop different types of housing if they wish?
- Should the City develop programs to incentivize and facilitate **ADU production** beyond the annual rate of 8 ADUs per year that has been seen since 2018?

Planning Commission Review of 2023-31
Housing Element

November 7, 2024

Meeting Objectives

- Introduce the 2023-31 Public Review Draft Housing Element
- Hear comments from the Commission and community
- Receive a recommendation to formally submit to the State for legally-mandated 90-day review

Presentation Outline

1. Recap of Legal Requirements for Housing Element and the Process for Developing the Draft
2. Overview of Draft Housing Element
 - Organization
 - Inventory
 - Housing Action Plan
3. Next Steps and Timing

Legal Requirements for Housing Element

Housing Element Overview

- State-mandated element
- City's plan for addressing local housing needs
- Updated on an 8-year cycle
- Subject to statutory requirements
- Mandatory review by Dept. Housing & Community Development (HCD)

Key Housing Element Components

- Inventory of available sites for housing
- Projection of realistic capacity
- Assessment of housing needs, constraints, and “fair housing” issues
- Program of implementing actions

What is RHNA?

- RHNA = Regional Housing Needs Allocation
- Total number of new housing units that City must plan to accommodate for 2023 – 2031 cycle
- Separated into four affordability levels:
 - Very Low < 50% area median income (AMI)
 - Low 50 – 80% AMI
 - Moderate 80 – 120% AMI
 - Above Moderate > 120% AMI
- Stanislaus County AMI = \$92,600 (family of 4, 2022)

Turlock RHNA Allocation

Turlock RHNA Allocations					
CYCLE	VERY LOW INCOME (<50% of Area Median Income)	LOW INCOME (50-80% of Area Median Income)	MODERATE INCOME (80-120% of Area Median Income)	ABOVE MODERATE INCOME (> 120% of Area Median Income)	TOTAL
6th (2023-31)	1,305	903	1,096	2,498	5,802
	22.5%	15.6%	18.9%	43%	100%

Requirements for Inventory and Site Suitability

- City is required to zone for sufficient capacity to meet RHNA
- High density housing (>20 du/ac) is deemed “affordable” by State
- Special requirements for lower income RHNA sites
 - Site size parameters (0.5 to 10 acres)
 - Absence of environmental constraints
 - Proximity to transit
 - Availability of infrastructure and utilities
- Must affirmatively further fair housing
- Past performance to demonstrate viability

Community Involvement

- Pop-up outreach at National Night Out event held at Columbia Park
- Focus group discussions with architects, builders, service providers
- Citywide community survey, received over 1,500 respondents
- Planning Commission and City Council decision-maker meetings

Public Review of Draft Housing Element

Draft Housing Element released	Oct 3
Public Comment Period	Oct 3 – Nov 2
Planning Commission Study Session	Oct 3

Property Owner Outreach

- Notification sent to owners of sites with Workforce Housing Overlay on Draft Inventory
- Survey of non-vacant commercial site owners
 - 4 responses to survey and 5 calls to staff
 - All owners interested in developing housing on property in next 5 to 10 years
 - Barriers include zoning and permitting, financing, and water connections
 - Participants noted streamlined permitting, discussion with City staff, and funding mechanisms may facilitate housing development on property

Staff Recommended Revisions

- An implementation timeline for Housing Action Plan prepared
- Staff recommends revisions to implementation timing of certain programs in the action plan to better space them out
- Revisions reflect what can realistically be accomplished based on staff resources and time needed to prepare materials
