# MANDATORY ORGANICS RECYCLING

## FOR BUSINESSES & MULTI-FAMILY COMPLEXES

## ORGANICS RECYCLING REQUIRED

State law requires businesses, including public entities, and multi-family complexes of five (5) units or more to recycle their organic waste. As of January 1, 2019 all businesses and multi-family complexes generating 4 or more cubic yards of solid waste per week must subscribe to organic waste collection services.

Businesses must arrange for organic waste recycling services for the following types of organic waste: food waste, green waste, landscape and pruning waste, nonhazardous wood waste, and food-soiled paper.

Multi-family complexes must arrange for organic waste recycling services for the same material except for food waste and food-soiled paper.

## HOW TO COMPLY WITH THE STATE REQUIREMENTS

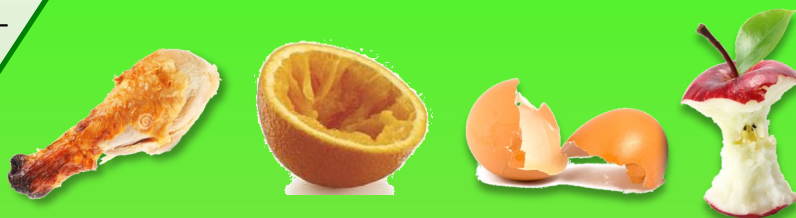

The City of Turlock and the City's contracted waste hauler, Turlock Scavenger Company, are here to help you comply with the state requirements.

**Check with Turlock Scavenger Company at (209) 668-7274 to learn how to arrange for organic recycling services for your business.**

- An organic waste cart will be provided for your business to collect organic material.
- Carts are collected on a weekly basis.
- Additional organic waste carts may be requested for larger quantities of organic waste collection.

### What is Organic Waste?

#### Food Scraps & Leftovers

#### Food Soiled Paper Products

#### Plants, Leaves, Flowers and Landscape Vegetation
